

DOUBT STORY OF CONFESSED SLAYER

EXTRA TERM FOR CONGRESS IS PROBABLE

Measures Piling Up Cannot Be Disposed of Before March 4

CAL AGAINST SESSION

Minority Can Force New Term by Filibuster on Floor of Senate

Congress shows every indication of a legislative jam out of which the chances are about even that an extra session may be forced.

Bills are piling up. Debate on a variety of essential topics continues and even if both houses were to devote themselves unintermittently to major legislation there would be no chance in the 33 working days remaining between now and March 4 to dispose of the important measures pending.

Farm relief, Muscle Shoals, railway consolidation, radio branch banking, French debt, Boulder dam, alien property, coal regulation, prohibition are the subjects of some of the principal pieces of legislation under consideration, but there are dozens more pressing for attention because, to tell the truth, the adjournment will come much later than the calendar which will be pressed forward by the sponsors.

APPROPRIATION BILLS

And entirely apart from these subjects are the appropriation bills, many of which contain controversial items that unquestionably will consume much time. Congress has had much to do to disburse its attention in recent weeks. The Lausanne treaty occupied many executive sessions, and the nomination of Cyrus E. Woods to be a member of the Interstate Commerce commission has stirred up a long debate on whether it should be considered in open or closed session and whether it takes a two-thirds or a majority vote to get the nomination considered in open session.

It is the foreground now, too, is the case of Frank L. Smith of Illinois, who was appointed United States senator, but who thus far has been denied the right to take the qualifying oath. He will be the subject of prolonged debate, too, just as soon as the committee on privileges and elections make its report.

Most members of congress do not relish the idea of an extra call, for it means a prolonged session because it can run indefinitely through the summer.

Not since the Wilson administration has congress been called into extra session if it could possibly be avoided by the chief executive.

DEPENDS ON MONEY BILLS

Mr. Coolidge has not permitted an extra session since he took the oath of office in 1925 and he is anxious that no circumstances shall arise which will compel him to call an extra session this time. But he will be powerless if some of the appropriation bills fail of passage, because the fiscal year of the government begins on July 1 next and unless money is appropriated the government cannot function. The usual way that an extra session is forced is to sidetrack an appropriation bill or two. A minority can filibuster in the senate and cause an extra session.

If farm relief fails, the chances are that its sponsors will join other groups in forcing an extra session. The next McNary-Haugen bill has better support than any previous farm measure and the leaders are determined to get it through the house this time, which will mean a renewed effort to get consideration in the senate at least during the present session.

WASAU SPORT PARADE

Wausau—(AP)—The largest crowd to ever view any spectacle in this city witnessed the monster parade Monday night, which opened the Wausau winter sports frolic which is to continue through the week, closing Sunday. It was estimated that 10,000 persons lined the streets where the procession of 60 floats and organizations marched.

Miss Ruth Miller, who was last week selected to rule over the week's festivities, reported Tuesday that the crowd before the largest gathering under one roof ever assembled in Wausau. The coronation was held in the new central school auditorium and more than 3,000 persons attended the spectacle. The queen was crowned by Mayor Otto Muenchow.

FORD PLANES HUNT FOR MISSING FISHING TUG

Michigan City, Ind.—(AP)—The Ford biplane reported Tuesday to have sent several aeroplanes to search for the missing fishing tug Imperial, which was fast in the ice in Lake Michigan Monday, and had vanished Tuesday with a part of the ice field had broken away and floated out in the lake.

AWARD GIRL \$20,000 FOR LOSS OF HER ARM

Chicago, (AP)—Miss Clara Chris 22 was awarded \$20,000 damages against the Midwest Motor Coach company in Superior court here Tuesday for the loss of her left arm. Miss Chris, whose home is at Alhambra, Wis., was injured when the bus in which she was riding collided with an automobile. She sued for \$30,000.

HOLT REFUSES OFFER AT LA CROSSE NORMAL

Janesville, (AP)—Frank O. Holt, superintendent of schools here, has declined the offer to become president of La Crosse Normal school, he announced Tuesday.

CANDIDATE?

New York—(AP)—William G. McAdoo, who has said he is in New York on legal business, has been visited at his hotel by friends from several states who have urged him to become a candidate for the Democratic nomination for president, New York newspaper say Tuesday.

These friends are declared to have based their pleas on the argument that Mr. McAdoo's leadership is essential to assure success for the efforts for the "dry" and "progressive" elements of the party. A plan of campaign also is said to have been talked over.

BILL TO BOOST STATE GAS TAX GIVEN SENATE

Cashman Proposal Increases Gasoline Tax from 2 to 2 1/2 Cents

Madison—(AP)—In a brief session highlighted only by the introduction of a bill proposing increased gasoline tax to improve side roads of the state, the senate resumed work Tuesday after an extended week-end recess.

Senator John E. Cashman, Democrat, who introduced the extra tax bill, declared that the farmers had been driven off the trunk highways because of inadequate state road development.

The revenue from the tax which would be increased from 2 cents to 2 1/2 cents would be appropriated for the use of the county and village street maintenance as well as the farm roads criss-crossing the state.

The state at this time makes an appropriation of \$25 for every one of the 58,000 miles of side roads. The new proposal would call for the doubling of the appropriation which would make a total of \$50,000.

Senator Cashman was chairman of the joint committee on highways in March, 1925, when the first appropriation bill was passed.

The only business in the senate was the passage of the usual resolution requiring lobbyists to register and report to the secretary of state twice a week and the reference to the revision committee of a number of minor bills.

The assembly met at 2 o'clock Tuesday afternoon.

ATTORNEYS ARGUE IN NORRIS MURDER TRIAL

Austin, Texas—(AP)—With the jury instructed for acquittal, if they believe the Rev. J. Frank Norris killed Dexter E. Chippie in self-defense, counsel for the Frank Baptist pastor and prosecution attorneys had an opportunity to use all of Tuesday's session and part of Wednesday to inject more passages from the Bible into the arguments which began Monday. Each side had six hours for argument. W. T. McLean, special prosecutor, and Dayton Moses, chief of defense counsel, were expected to start their part of the argument Tuesday.

FOURTEEN DROWN AS SPANISH SHIP SINKS

Gijon, Spain—(AP)—Fourteen members of the crew of the Spanish steamship Retamar were drowned when the ship foundered off the Portuguese coast. People on the shore witnessed the tragedy but were unable to give assistance owing to the fury of the waves. Only five of the ship's crew reached shore.

Here's What Causes Dry Law Disrespect In U. S.

Washington—(AP)—Hip flasks, current novels, motion pictures and society matrons who continue to serve their guests wines and champagne are among agencies contributing to disrespect of the prohibition. In the opinion of Mrs. Ella Boole, Brooklyn, national president of the Women's Christian Temperance Union.

Her views were set forth in a keynote address prepared for delivery Tuesday at the opening of the national conference of the union here.

A survey by the government of the effects of prohibition on industry and nations will be proposed by the conference, Mrs. Boole said.

Reviewing the progress of the prohibition legislation before the enactment of the eighteenth amendment, Mrs. Boole declared that "no other amendment adopted by the people of the United States was ever ratified by so many legislative bodies."

BRITISH SEND 12,000 MEN TO CHINA

PREPARE TO CURB FURTHER MOB VIOLENCE

America Will Not Concentrate Forces in China at Present, Says Cal

Washington—(AP)—Great Britain's preparations for defense of her interests in China apparently will not be followed, for the present at least, by an extensive concentration of American forces in the Orient.

President Coolidge sees a wide difference between the British problem in China and that of the American government, since Great Britain has concessions there, while the American government has none.

Because of that condition, the president can see possibilities of differences in general policy, as to China, between the two governments.

All of this will be set forth at length in a statement soon to be issued by Secretary Kellogg, which will be in the nature of a reply to the recent British memorandum.

Meantime the Washington government will use the forces it has available in Chinese waters to afford protection to its nationals to the best of its ability.

PEACHES TESTIFIES AND WEEPS ON STAND

Court Declares Five Minute Recess in Browning Separation Suit

Courthouse, White Plains, N. Y.—(AP)—Mrs. Frances Peaches Browning testified in the separation suit brought against her by her husband, Edward W. Browning. The court declared a five minute recess. She had been testifying of the first night she and her husband had spent together after the wedding.

The Browning case is being heard on the same courtroom in which Walter S. Wayd was tried and acquitted of the murder of Clarence S. Peters, and is two floors above the room in which the Rindlander annulment action was held.

Mrs. Browning's breakdown followed her recital of alleged cruelties of her husband, which she said began immediately after the marriage. After the recess and half an hour's testimony by Dr. George Blakelee, neurologist, Mrs. Browning continued her story, saying she was "punched and scolded" when she declined to obey Browning's commands that she finally had to submit to his every wish.

She then testified to the visits at the hotels of the various tabloid reporters to take her pictures at Mr. Browning's request. She was shown an interview, she said, entitled "Why I Married Peaches," purporting to be written by her husband.

Mrs. Browning at one point in her testimony told of her husband taking her by the neck and pushing her to the floor and saying "booh." That incident was terminated, she said, by her mother taking her from Browning's room. She was still on the stand when court recessed for lunch.

As the crowd left the building for the noon recess Browning was spied entering his famous blue limousine. A near riot occurred in the street as hundreds pressed around his shouting "hurray, hurray, for Browning."

The exit from the building of Mrs. Browning was made undetected by those waiting.

INFLUENZA, TYPHOID RAGING IN RUSSIA

Moscow—(AP)—A plague of influenza and typhoid fever has broken out simultaneously in different parts of Russia. Within an area of thirty square miles in the rural district 30 persons have perished from the black plague, while thousands are ill.

In the Kharkov district, 2,000 cases of typhoid are reported, resembling the disastrous epidemic of 1919 which killed thousands.

Typhoid is raging in the Bryansk district where, out of 400 cases, 17 persons have died. The government is taking stringent measures to check the outbreak.

HUSKIES READY TO START DERBY RACE IN EXTREME COLD

The Pas, Manitoba—(AP)—Twenty-five below zero blasts greeted a colorful throng of Indians, trappers, prospectors and townspeople at this northern Manitoba outpost for the start in Tuesday of the three day 120-mile The Pas Dog derby and winter carnival.

Six teams of stout-hearted northern dogs—cross-breeds and huskies—were entered for the first heat of 40 miles on an 8-mile course on the Saskatchewan river. The second and third heats of 40 miles each are scheduled over the same course for Wednesday and Thursday.

"Shorty" Russick, several times winner of the derby, and Emil St. Godard are early favorites. Other drivers are Thomas Elvers, Harry Oleansky, Leo St. Godard and Earl Bridges.

MEXICO MUST KEEP FAITH, SAYS LENROOT

Senator Would Withdraw Recognition Until Obligations Are Met

Washington D. C.—(AP)—As the dispute with Mexico gave indications Tuesday of moving toward a showdown, congress renewed its consideration of ways and means for giving President Coolidge the benefit of its advice.

A resolution proposing arbitration was brought up in the senate with the backing of Senator Robinson of Arkansas, the Democratic floor leader, and of Chairman Borah of the foreign relations committee, but it encountered a formidable opposition led by Senator Reed, Democrat, Missouri.

At the same time the house foreign affairs committee agreed to hold hearings Friday on the Fairchild resolution, proposing that the house endorse the president's Nicaraguan-Mexican policy.

DEPARTMENT SILENT

The state department remained silent in the midst of these developments, but it was apparent that with the cancelling of drilling permits for American oil interests in Mexico, the diplomatic disagreement had entered a phase which might easily bring the whole controversy to a definite showdown.

During the senate debate, Senator Robinson, who is the author of the arbitration resolution, said that recently large British oil holdings in Mexico had passed to the control of "the Mellon group." He did not enlarge upon this statement.

Senator Lenroot, Republican, Wisconsin, declared that unless Mexico evinced a willingness to settle pending questions, recognition should be withdrawn.

LENROOT ADDRESS

"I do not anticipate war with Mexico," he said. "I know nothing of the course the administration proposes to pursue, more than the general public knows, but I venture the opinion that unless Mexico shall evince a willingness in good faith to settle pending question upon the basis of justice and equity governed by rules of international law, recognition of the existing government should be withdrawn, the embargo upon the shipment of arms raised, and all investment of American capital in Mexico discouraged in the future, until such time as Mexico shall be willing to assume and fulfill her international obligations."

"Were the controversy with Great Britain, instead of with Mexico, the country would be aflame today with indignation against Great Britain, and immediate suspension of diplomatic intercourse would be demanded."

WEAKNESS OF MEXICO

"The fact is there is no strong government in the world today that would violate the rights of American citizens as Mexico has done, and the fact is further that it is only because of the weakness of Mexico and the strength of the United States that our government has been so patient and forbearing."

Senator Lenroot recounted the steps Mexico has taken in exploitation of rural property at the expense of American holders and continued:

"These are matters that cannot be arbitrated, and I am frank to say that I do not see how we can continue any relations with Mexico unless she shall have some regard for her solemn promises and international obligations."

"We want nothing of Mexico except friendship and good will, and an observance of those fundamental obligations without which there can be no intercourse between nations."

SACASA SPENT BIG SUM, HE DECLARES

Puerto Cabezas, Nicaragua—(AP)—More than half a million dollars has been spent by the liberals in their campaign to oust the Conservative president, Adolfo Diaz, and "reestablish a constitutional Nicaraguan government," said Juan B. Sacasa, Liberal president, in a statement Tuesday. He adds that the Liberals at the present time have over more than \$10,000 remaining, although they expect a great response to appeals for assistance which have been sent out.

CANADIAN HANGMAN TO WRITE MEMOIRS

Winnipeg—(AP)—After presiding at more than 400 executions, Arthur Ellis, Canada's official hangman, has decided to retire and publish his memoirs, he confided Friday on his arrival here. Ellis Wednesday will supervise the hanging of Wilfred Donnan, slayer of a woman who was punished as he fought capture, following a bank robbery. Bonnin will be carried to the gallows.

Students Wait In Vain For Message Of Spirit

Madison—(AP)—Grouped about their fraternity preside out of respect to a dead brother, members of Delta Kappa Epsilon maintained a midnight vigil here Monday night but the spirit of Walter Cassels Noe, University of Wisconsin student who committed suicide, did not return.

Included in the circle was Robert Horton, Oak Park, Ill., who was mentioned in Noe's farewell note as the one before whom he would appear in spirit.

Again Friday night the brothers will resume the silent vigil. Although efforts to exact a statement from Horton were still unavailing, it was understood that the fraternal meeting was held to pay respect to the youthful medical student while the confident assertion of Noe that "I'll be back at midnight" hovered over the gathering. Outsiders, including several newspapermen, who attempted to sit with the fraternity group during the quiet hour were denied entrance to the house and Horton still remained incommunicado. He refused to answer all telephone calls or to be seen by visitors at the fraternity house.

Funeral service for Noe will be held Wednesday at the home.

Oh, Yes, Carol Talks--But Not Of Himself As King!

Paris—(AP)—Rumania's erstwhile Crown Prince Carol, whose exact status has been somewhat hazy ever since he renounced his royal prerogatives more than a year ago, is willing to talk about almost everything, but is silent on what is of most interest to his countrymen and others.

Conceded after sitting through a conference on "monarchical institutions of the Balkans" at the Sorbonne, he remarked that he was not going home "just yet," but refused to discuss reports that his father King Ferdinand, was soon to abdicate and that he was to ascend the throne.

Carol admonished the correspondents to "leave politics alone," or he would run away. This was after he had been asked if he would return to Rumania. Then, when questioned about the possibility of a reconciliation in Italy with his royal wife, Princess Helen, from whom he has been separated "for months," he replied evasively—something about the Italian climate in winter.

The prince, in faultless English, touched on many topics ranging from football to literature, but as for Balkan and European politics he would say nothing.

SENATE TURNS DOWN WOODS' NOMINATION

Pennsylvania Rejected as Commerce Commissioner by 49 to 28 Vote

Washington—(AP)—The nomination of Cyrus E. Woods of Pennsylvania, as a member of the Interstate Commerce commission rejected Monday by the senate will not be submitted, it was said Tuesday at the White House.

Washington, D. C.—(AP)—President Coolidge will have to look for another nominee for the post of the Interstate Commerce commission, now held by Frederick T. Cox of New Jersey.

The appointment of Cyrus E. Woods of Pennsylvania, former ambassador to Spain and Japan, to take the place of Mr. Cox, whose term has expired, has failed of confirmation in the senate by a surprisingly large majority.

In rejecting the nomination late Monday by a vote of 49 to 28 after a heated three day battle in executive session the senate added another name to the now rather large list of Coolidge appointments that it has found unacceptable, and blasted, for the time being at least, Pennsylvania's long-fought hope for representation on the commerce commission.

Mr. Woods, who twice before had been confirmed as an ambassador, had been endorsed by Secretary Mellon and Senators Pepper and Reed, Republicans, of the Keystone state.

Woods opponents contended the main purpose behind the move to have Pennsylvania represented was to give the soft coal operators of that state an additional advantage in the Lake Erie freight rate controversy with Virginia, West Virginia, Kentucky and Tennessee.

"I didn't like the kid," Lee told the coroner's jury. "I'd been figuring on this job for two or three days. He snuffed off his work too much on me."

WITHDRAW MARINES FROM MAIL SERVICE

Washington—(AP)—Five hundred marines were withdrawn Tuesday from the mail guard. They will be concentrated at the marine bases at Quantico, Va., and San Diego, Calif. An additional 500, for similar concentration, will be withdrawn from their present assignment of guarding the mails on or before Feb. 15.

The Marine corps commandant, Major General Lejune, insisted Tuesday that the latest movement of troops had no bearing on the Chinese or Nicaraguan situation.

BELIEVE FRENCH GOLD TO PAY DEBT INTEREST

Washington, D. C.—(AP)—A part of the \$5,000,000 in gold bullion shipped here by France recently is expected by the treasury to be used in payment of interest due the United States government, Feb. 1, on the war supplies debt. France will owe the United States \$10,000,000 on that debt.

HOLD BOY FOR MURDER OF HIS FELLOW INMATE

Chehalis, Wash.—(AP)—Stanley Lee, 17, inmate of the state training school here, faced a first degree murder charge Tuesday for having beaten to death another inmate, Otis Hudson, 16, with a hammer. A coroner's jury Monday night held Lee responsible for the death after hearing his confession.

"I didn't like the kid," Lee told the coroner's jury. "I'd been figuring on this job for two or three days. He snuffed off his work too much on me."

PIN TAX REDUCTION TO DEFICIENCY BILL

Washington, D. C.—(AP)—The Democratic proposal for a \$25,000,000 tax reduction effective next year is to be offered as an amendment to the \$125,000,000 deficiency bill now pending in the senate.

COFFEY STICKS TO STORY THAT HE KILLED BIGAMOUS WIFE IN WISCONSIN

Slayer May Face Noose if Case Is Tried at Dubuque—Defies Officers

Mauston—(AP)—Whether William X. Coffey, Madison bigamist, is prosecuted in Wisconsin or Iowa for the confessed slaying of his four week's bride, depended Tuesday upon the outcome of an investigation by Iowa authorities who were enroute to Mauston to quiz Coffey.

District Attorney R. M. Orchard of Grant-co., Wis., where Coffey says he killed Mrs. Hattie Hales Coffey, Oct. 13, 1925, the Associated Press here would be guided in his decision as to whether he would issue a murder warrant, by the outcome of the inquiry to be made by District Attorney Allan Kane and Sheriff F. J. Kennedy.

"Sheriff Kennedy is more familiar with the country where Coffey says he killed his wife, and he agreed to go to Mauston and attempt to determine whether the murder was committed in Iowa or Wisconsin," Mr. Orchard said Tuesday. "I shall be guided by what he finds out. If he reports that, in his belief, the crime was committed in Wisconsin I shall issue a murder warrant for Coffey. If he believes the murder was committed in Iowa, Coffey probably will be turned over to Iowa authorities."

BELIEVE AXE WAS WEAPON

Madison—(AP)—Continuing to stick to his story, Coffey, with the press's confession, Madison police Tuesday expressed the belief that an axe, and not a baseball bat, was used by William Coffey in slaying his bigamous wife.

Tones from a camping outfit and a blood-stained automobile have been the basis for the police theory. The baseball bat, however, was reported to have been found in a tourist park near Dubuque, Iowa, where Coffey confessed he killed Mrs. Hattie Sherman Hales.

Coffey claimed that he sold his camping outfit, but the few reports remaining led police here to believe that he might have wrapped the body of the woman in the tent, weighted it with rocks, and dropped it into the Mississippi river.

Fred M. Wylie, Madison attorney, who was said to have been engaged to defend Coffey, declared Tuesday that he had heard nothing of such arrangements.

DELVE FOR DETAILS

Finding of the bat and the fact that Coffey previously in his automobile travels had always stopped at organized tourist camps led authorities to believe that Coffey had not revealed all details of the killing and that the death blow actually was struck in Iowa, where under the law a jury may fix the penalty in a murder case at life imprisonment or hanging. In Wisconsin the extreme penalty is life imprisonment.

District Attorney Robert Clark of Juneau-co. will confer Tuesday on the possibility of bringing Coffey to trial in Iowa in connection with the killing.

Coffey, who at one time in his varied career was an employee of an organization which aids ex-convicts, has considerable knowledge of criminal law, particularly as it affects his case.

"I have confessed to accidental killing in Wisconsin," he remarked to District Attorney Clark Monday. "If you want to convict me of murder in Iowa, you will need to produce the body."

Regardless of the status of the death charge which Coffey faces, he also must contend with bigamy and forgery charges. The forgery charge already has been sworn against him under Wisconsin laws.

Hunter A. Hales, the body of Mrs. Hales in the Mississippi near the point where Coffey said he tossed it into the river would be futile, authorities of Wisconsin and Iowa counties agreed Monday night. The river is frozen and there is little likelihood of finding the body until spring sets in, they said.

OHIO FLOOD WATERS SLOWLY RECEDING

Believe Danger from River Is Past in Upper Reaches of Stream

Little Rock, Ark.—(AP)—A special relief train on the Rock Island railroad left Tuesday for Jackson Port, four miles from Newport where a levee on the White river threatened to break and flood the town. The train was to remove residents and perishable goods. A few small levees have broken near Newport where flood waters have caused heavy damage to farm crops and live stock but no immediate danger in Newport is seen.

Cincinnati—(AP)—Flood waters in the upper reaches of the Ohio river began slowly to recede Tuesday as the crest of the high waters, which inundated many river towns, moved down the stream.

The Ohio river was falling Monday night at Pomeroy, Ohio, and it was expected that the river would be within its banks there Tuesday. Monday the river flooded the railroad and interurban tracks and low-lying areas of the town.

Further down the river the rise continues. At Trenton, 150 families were forced from their homes by the flood as the water neared the 50 foot mark, and continued to rise slightly more than an inch an hour.

At East Liverpool, where water isolated the city, the damage was estimated at more than \$100,000.

The river stood at 57 feet here Tuesday, and a rise of approximately one-tenth of an inch an hour was expected to reach a stage of 59 feet Tuesday. Small streams were falling and a forecast of clear weather gave promise of relief from the flood.

DERRY PREDICTS MEXICO SOON WILL BE IN CIVIL WAR

Bolshevist Government Fights Church Because It Opposes Plunder of People

A civil war within a month or two which will clarify the situation in Mexico was predicted by Dr. George Herman Derry of Marquette university, Milwaukee, in an address before about 1,100 persons in Lawrence, Kansas, Monday evening. The lecture was under auspices of the Knights of Columbus and the speaker was sent here by the supreme council which has a fund of \$100,000 for combating sovietism and communism in the American continent.

The speaker was presented by Gustave Koller and his address followed a brief concert by the 121st Artillery band.

Dr. Derry declared the Knights of Columbus do not desire American intervention in Mexico and he said the only purpose of his lecture is to inform Americans of the situation south of the Rio Grande and permit them to draw their own conclusions.

ISN'T BOLSHIEVISM?

"The Bolshevist Mexican government attacked the church because the church was the only obstacle to complete socialization of Mexico; because the church is the only agency and the only institution which has raised a hand against the rape of the country," Dr. Derry said. "Because the church has dared to protest against the crimes of Mexico's bolshevist leaders every energy and every ingenuity of the Mexican government is devoted to tearing it out."

A red revolution has existed in Mexico for ten years, since the adoption of the present constitution in 1917, Dr. Derry said. He compared the Mexican constitution, with its attacks on all the institutions which Americans hold most dear, with the American constitution which is a pledge of security for "life, liberty and pursuit of happiness."

AMERICAN QUESTION

The Mexican question is an American question, Dr. Derry said, because in Mexico bolshevism is at the back door of America and because in Mexico every right and principle dear to American hearts is being violated. He presented numerous proofs that the Mexican government is bolshevist, even quoting the boast of high Mexican officials that it is seeking socialization of resources and that its constitutional articles on labor are the most radical in the world, more radical even than anything that Red Russia has been able to produce.

Dr. Derry devoted a portion of his lecture to reciting the history of the Catholic church in Mexico to show what it had accomplished in that country and then took up several of the arguments which President Calles and the Mexican government have presented to the American people to justify their attacks on the church. Dr. Perry graphically explained the working of the Mexican constitution in religious matters, showing that the free practices of religion in this generation is made extremely difficult, if not all possible, by restrictions on the use of property and on the ministry, and he showed that religion will be wiped out entirely in another generation because the Mexican law prohibits schools for preparation for the ministry and at the same time prohibits foreign born missionaries and priests from officiating in the country.

DOOM IS SEALED

"The doom of Mexico is sealed by the immortal words of Washington, 'That no country which forsakes God can long endure,'" Dr. Derry said. "Mexico is dead but doesn't know it yet."

In Mexico's "Golden age," when the church was unhampered in its work of educating the people there was less illiteracy and more schools in the country than there are in Great Britain, Dr. Derry said. The University of Mexico was world famous for its scholars and its equipment long before the first college was founded in the United States, he said. He contrasted the education of the Mexican Indians, who produced numerous statesmen, doctors, jurists and artists under the tutelage of the church, with the stagnation of the American Indian to show that the church did not neglect the education of the people in the old days and declared that schools were closed and education neglected only after the government seized church property and made it impossible to conduct the schools.

SCHOOLS CLOSED

"Mexico is illiterate today because the government for 15 years has prevented the church from carrying on educational work and has done nothing itself to take the place of the work which the church did. There was no illiteracy in the country when the church was unhampered."

Politics in Mexico means the paganization of the country, and organized plunder of industry and the church is in politics to the extent of protesting

BISHOP PLEADS FOR ANOTHER DIOCESE

LaCrosse Convocation Should Be Set Aside, Episcopal Leader Says

Madison, (P)—Describing the large and important convocation of Milwaukee Bishop W. W. Webb on Tuesday urged the creation of another diocese in northwestern Wisconsin.

In an address before the eighteenth annual council of the Milwaukee diocese, Bishop Webb declared that the La Crosse convocation ought to be set apart as a separate diocese. He said he had often said I have neglected Milwaukee because I felt that whatever missionary money I had to use, should be used in the missions of the convocation of La Crosse, because I felt that the time would shortly come when it would be cut off as a diocese and therefore had to be strengthened as far as possible. Although the development has not been as great as I had hoped, yet some strong parishes have been built up, notably Christ church, Eau Claire, and I feel very certain that if this convocation is set off as an independent diocese, together with those counties that may be ceded by the diocese of Fond du Lac, it would be possible to build up a very strong diocese.

"It is impossible for a bishop residing in Milwaukee to really understand the conditions and look after parishes and missions as far away as those in the northwestern part of the State."

REWARD OFFERED FOR RETURN OF STOLEN CAR

A reward of \$25 is offered for information leading to the recovery of a Chrysler coach stolen Jan. 15 at Lansing, Mich., according to word received by Appleton police. The car is a 1927 model, the motor number is 1019 and the license is Michigan 214502 of this year. No further description is had of the vehicle.

CITY RINKS IN GOOD CONDITION FOR SKATING

Every ice rink in the city was in good shape for use Tuesday, according to R. F. Hackworthy, street commissioner. The rinks were scraped and flooded Monday. The water froze Monday night and the rinks could be used Tuesday afternoon. City rinks are located at Roosevelt school, Columbus school, First Ward school, Outagamie and Summer-sts and Cass-st, and Walter-ave. The rink at Walter-ave is much smaller than the others. Because of the poor condition of the ground it was impossible to make it larger.

Master Builders meet

The Master Builders association will hold a weekly meeting Tuesday evening at the Insurance building. Routine business matters will be transacted.

against this bolshevism and this socialism of the nation," Dr. Derry said. Charges of Mexican propagandists that the church exercised an economic domination of the country because of huge accumulations of wealth and property by priests, bishops and religious institutions were denied by Dr. Derry. He said that even the bitterest of Catholic foes in Mexico were able to find that the entire wealth of the church, property and endowments, was less than \$100,000,000 and he showed that three colleges in United States have endowments and property in excess of that owned by the entire Catholic organization south of the Rio Grande. Dr. Derry also presented figures to show that in America the Baptist church, which has about the same number of adherents as the Catholic church in Mexico has property and endowments many times greater than that owned by the Catholic church in Mexico and that its income is ten times greater.

"Hatred of the Bolshevist regime in Mexico is directed against the Catholic church because it has dared to raise its voice against the plunder of the land by Calles and his followers," Dr. Derry said. "Because the church has the courage to fight for its principles these unprincipled rapists boast they will not rest until they have chased Christ across the frontiers of what they misname their republic."

"HONOR BRIGHT" IS DRAMA CLUB'S BIG EFFORT OF SEASON

Womans Club Division Has Done Good Work in Last Eight Years

"Honor Bright" the three act comedy to be presented by the Dramatic workshop of the Appleton Womans club at Fischer's Appleton theatre, Feb. 7, will be the chief production of the workshop's fifth year of dramatic study. The dramatic department of the club has functioned for eight years. Men and girls are members of the club and are cast in the play.

Among the one-act plays produced by the club are "Thursday Evening," "The Neighbors," "Why the Chimes Rang," "Dust of the Road," "The Florist's Shop," "Spreading the News," "The Wonder Hat" and "The Trysting Place." The first three act play to be given by the group was "Daddy Long Legs" in 1925. Last year "The Crimson Rambler," a version of Kate Douglas Wiggin's "Mother Carey's Chickens" won approval.

Meredith and Kenyon Nicholson, authors of this year's production "Honor Bright," are popular writers. The play contains a number of clever situations and the parts are well suited to the membership of the club. Miss Elinor Strickland, dramatic director, said.

Four hundred seats will be reserved in the bleachers at Appleton high school games played at Armory O'herafter, according to H. H. Helble, principal of the school. Complaints have been made by the public after the games that all of the choice seats are taken by students early in the

Take Little colds in hand

COLDS are the Nation's most costly and dangerous disease, and altho' scientists confess they do not know what causes them they do know: "To Avoid a BIG cold stop a little one."

In relieving colds, little or big, here's the approved treatment: (1) A day's rest. (2) A laxative. (3) A light diet. (4) Vicks rubbed on throat and chest.

Vicks medicated vapors, released by the body heat, are inhaled direct to the air passages; at the same time Vicks acts like a poultice.

Mothers cherish Vicks as a treatment for children's colds because, being externally applied, it cannot upset delicate digestions.

evening, younger boys and girls, especially, go to the building about 6 o'clock in the evening and shortly after to get seats. When the general public arrives about 7:30 or later, all of the desirable places are taken.

Beginning with the Fond du Lac game Friday evening, 200 seats will be reserved in each set of bleachers. They may be purchased at the door. This week's game will start at 7:30 instead of 8:15 in the evening because of the teachers party given by the board of education, Appleton Womans club and Knights of Pythias lodge at Castle hall. The teachers thus will be able to attend both events. No preliminary game will be played.

PUPILS' ABILITY IN ARITHMETIC IS ABOVE U. S. AVERAGE

Only Two Grades Measure
Below Average in Tests
Conducted by Teacher

Arithmetic ability in the grade schools in Appleton is above the average, it was found by Frank B. Younger, principal of the McKinley grade and junior high school, who conducted Woody-McCall mixed fundamentals tests in 28 grades in the public schools in December. Only two of the 28 grades examined fell below the average grade. These were in the fifth grades in the First ward and Franklin schools. It was noticed that the sixth grade in both schools the arithmetic work was above the average, showing that it probably was not a basic slump. There were 999 pupils in the groups tested by Mr. Younger.

Practically every grade was well above the medium score established by giving the tests to many children in different sections of the country. All but the two were above the average.

The average standing for third pupils was 7.54, whereas the lowest in the Appleton grades was the Washington school with 8.3 and the highest, the McKinley, with 12. In the fourth grade the average was 12.83, Lincoln school, 12.5, low for the local group, and Franklin school 16.14, high for Appleton schools. The fifth grade average was 18.22; Appleton's low, Franklin school was 15.5; and local high, Columbus school, 22.66.

Franklin school scored high in the sixth grade with an average of 20.5. First ward school was low with 22.75, and the standard grade was 22.71. Although Franklin fell below the medium in one grade in the following and preceding sections, it boasted the highest average in the city.

Teachers will base their work in the fundamentals of arithmetic on the results of these tests, Mr. Younger said. Common errors made by the pupils will be located by these means, and the instructors may stress their correction, rather than emphasize points already clear to the class. A second series of similar tests will be made in the spring to determine what progress has been made in the remedial work.

TEAR-PROOF PAPER MONEY IS ISSUED

New \$1 and \$5 Bills Will
Make Appearance Here in
Short Time

New \$1 bills, minted from a new paper evolved by the bureau of standard and said to be practically tear-proof, have been placed in circulation and are expected to show up in Appleton shortly. Three local banks have not had notice that the bills are being circulated but a fourth states that the notice has been received and that not only \$1 bills but \$5 bills of the new material will be circulated.

The increasing cost of the annual replacement of worn-out paper currency aroused the government and it recently ordered an investigation by the bureau of standards to determine the durability factors of paper suitable for currency use. The bureau found that new linen and cotton paper mixed with a ratio of 75 to 25 percent respectively, produced the best paper making fibre.

The new money will be used mostly in \$1 bills, because this denomination is most frequently handled. Increased rapidity of circulation and rougher trade usage are said to be the cause of the decreased life of the paper money. These conditions are unlikely to change and the durability of the new currency, if proven successful, will be welcomed throughout the country.

ILLNESS TAKES MANY TEACHERS FROM RANKS

Fifteen teachers have been absent from Appleton public schools because of illness since Christmas vacation. It was reported at the superintendent of schools office. This is the largest number that has been away from classes this year, it was said.

In one day last week there were nine instructors absent. One substitute teacher was called from the list kept at the office who had never before been enlisted for service. Most of the absences have been from the 3rd and 4th grades, rather than the lower grammar sections and high schools.

UNCLE SAM SEEKS JOB APPLICATIONS

Host of Positions Open for
Successful Civil Service Applicants

Open competitive examinations for the United States Civil Service Commission have been announced for positions of construction foreman, automobile mechanic's helper, junior veterinarian, typist, stenographer, nurse, occupational therapy aids, engineer, dairyman, social worker, reclamation economist, patent examiner and others. Application for these positions must be filed at various dates from Jan. 15 to June 30.

A specialist in cotton classing will receive a salary of \$3,500 a year. Application will be rated as they are received at Washington, D. C. until March 1. The position of junior patent examiner will pay a salary of \$1,850 and application should be made by Jan. 29.

A psychiatric social worker will receive \$1,850. Two dates have been set for applications for junior observer in meteorology, Jan. 15 and March 12. The salary paid is \$1,220. Positions for associate and assistant reclamation economists will be paid \$3,000 and \$2,400 respectively. Applications must be filed by Jan. 15.

A junior cartographic engineer, whose applications are due Jan. 25, will receive \$1,560 a year. Several positions are open for occupational therapy pupils in the fields of arts and crafts, trades and industrial, and agriculture and for occupational therapy pupil aide in arts and crafts.

Two graduate nurse positions, one for visiting duty, are open and applications may be made until June 30. A junior typist will receive \$1,140 and a junior stenographer \$1,320. Candidates should apply not later than Jan. 28. Application dates for the positions of construction foreman at \$1,850 and automobile mechanic's helper at \$1,140, are due Jan. 25. A junior veterinarian will receive \$1,560 and must apply by Jan. 29. Applications for physician therapy aide, pupil aide, and assistant must be on file at Washington not later than Jan. 29, March 12 and May 28.

Further information and application blanks may be obtained from H. J. Franck, secretary of the United States Civil Service board, at the local post-office.

THINKS HEAVIER FINES WOULD HELP DRY LAW

Madison (AP)—The new state prohibition commissioner, Roland W. Dixon, thinks imposition of heavier fines and longer sentences for bootlegging and intoxication would help decrease the sale of intoxicating liquor and "aid materially in improving existing conditions."

Mr. Dixon, asked for an interview on his intentions for his term as prohibition enforcement officer, said he hoped to "have people form their own opinions about me a year from now, when they can see what I have done."

HUBER LAW MIGHT FACE AMENDMENT

Mineral Point Senator Thinks
Criminals Have Too Much
Freedom

Madison (AP)—Amendment of the Huber law, which requires judges to sentence criminals having dependents to part time at hard labor, usually outside of the jails, may be proposed by Senator Charles W. Hutchison, of Mineral Point, he said here Monday.

On the contention that the law permits prisoners to be virtually free during the day, there has been agitation for its remodeling. The proposed amendment, if introduced, will probably take the form of removing the mandatory provision, making such sentences optional with the sentencing judge.

Two previous attempts to amend the law, once in 1923 and again in 1925 were unsuccessful, despite the fact that on both occasions both the legislature and the governor, J. Blaine made use of his veto power to kill the amendments. The first amendment in 1923 was fathered by Senator Henry A. Huber, who sponsored the original bill in 1913. The 1925 amendment was brought forward by Senator E. J. Roethe, Fenimore.

Former Gov. Blaine's objections to changing the law were primarily that many jails in the state are not fit to house prisoners for any great length of time, and that convicted persons should be put to work rather than impair their health in unsanitary institutions.

Dist. Atty. P. E. Conley of La Fayette county has conferred with Senator Hutchison regarding an amendment to the law. Mr. Conley objects to the law because it requires "habitual violators get practically the same treatment as first offenders when they should be punished more severely to make them realize the seriousness of their acts."

PERSONS ON JURY LIST TO GET QUESTIONNAIRES

Questionnaires to approximately 300 persons whose names were drawn last week for jury service in Outagamie-co were mailed Friday by H. A. Shannon, clerk of municipal and circuit court. The list was prepared by Charles C. Baker, Frank C. Balcock and Bert G. Dean, jury commissioners.

All persons on the list are required to fill out the questionnaires and return them to the clerk, thus enabling the commissioners to determine the qualifications for jury service of those under consideration.

Jury drawings are made at irregular intervals depending upon the length of the available jury list in the clerk's office. The list never is any larger than 450, and when it decreases to 100 or below, more names are drawn.

Occupation, full name, address, and age are some of the questions asked. Condition of the natural faculties, length of residence in state and county, citizenship and ability to read and write English understandingly, also must be indicated.

Little Chute Lady Now Well

Tells remarkable story of relief
brought by new remedy Drecto.
Says she's like another woman.

"For the first time in eight years I am enjoying good health and I give all the credit to this Drecto that is being introduced by the Drecto man at Schlicht Bros. Drug Store," says Mrs. Nick Helf of Little Chute, a suburb of Appleton, wife of the well-known water tender at the Little Chute Paper Mills.

"My whole system was completely rundown when I started on Drecto. My stomach filled with gas and acids almost as soon as I started to eat and I was bloated up and belching all the time. I had gnawing pains in my abdomen, was subject to cramps and shooting pains around my heart and could hardly breathe at times. I was in such pain I hated to eat because of the suffering I knew I would go thru afterward. I slept poorly, always felt tired and weak and at times couldn't do even the lightest work around the house."

"Besides suffering with my stomach I was also troubled with dizzy spells, weak kidneys, rheumatism and headaches and was so nervous I couldn't bear having my grandchildren play around the house."

"But since taking Drecto I am a new woman. I feel ten years younger and all my suffering has ended. My stomach is now in excellent condition, my bowels are regular, the headaches, dizzy spells, rheumatism and nervousness have all been relieved and I eat, sleep and feel like a young girl again."

"The good old-fashioned roots, herbs, barks and leaves like our forefathers brewed their teas from and raised a hardy race of people, are still recognized as the best remedies for the stomach, liver, kidneys, bowels and blood. Drecto is made from twelve herbal plants and its action is prompt and pleasant for man, woman or child."

Mr. H. W. C. Marr Baker, the well-known Expert from the Drecto Laboratories now at Schlicht Bros. Downtown Drug Store, is telling scores of people every day how to take Drecto for best results. Go to see him.

FORMER MOTORCOP AWARDED \$5,000 IN DAMAGE SUIT

Jury Orders Woman Auto Driver to Pay Policeman for Injuring Him

Menasha—Joseph A. Martell, desk sergeant of Menasha police department, was awarded a verdict of \$5,000 in his \$50,000 damage suit which he brought against Frank Kutcher and Emma Kutcher of Menasha in circuit court at Oshkosh. The suit had its origin in an automobile accident on Sept. 6, 1924, in which the officer was injured. The case went to the jury at 3:40 Monday afternoon and the verdict was reached at 7:50 Monday evening. Testimony in the case was taken Friday, and Monday morning and a portion of Monday afternoon were occupied with arguments of the attorneys of the jury.

Harry V. Meissner, defense counsel, was reprimanded by the court for persisting in making statements regarding the insurance carried by the defendants after the judge had sustained a motion of W. B. Ruben, opposing counsel, that the jury be instructed to disregard these remarks.

Mr. Meissner precipitated a hot discussion when he told the jury that the Kutcher carried a \$5,000 policy. Mr. Ruben objected to this form of argument on the ground that the amount of the policy had not been shown in the evidence and that it had no bearing on the case. Mr. Meissner replied that the testimony had brought out the fact that there was a policy and that Mr. Ruben had used this fact in his argument, holding that the statement as to the amount was to inform the jury as to the full facts.

Judge Bestinger held that the testimony regarding the insurance was relevant as tending to show the amount of the weight which might be given the witness statements. The witness was a representative of the insurance company in question. He further ruled that the amount of the policy was irrelevant.

Mr. Meissner offered to prove the amount. He discovered, however, that the policy was not in court, and that he could not do so. In view of this, Mr. Ruben further asked that the defense counsel be asked to refrain from any further reference to the matter. The final reprimand of the court, came just before the noon recess when Mr. Meissner pointed out to the jury that the company which protected the Kutcher was the same that protected the city of Menasha under the workmen's compensation act.

Mr. Ruben, in his opening argument, attacked the defense witnesses' stories as impossible, referring to the testimony offered by Mrs. Kutcher, driver of the car, and her daughter, that they had neither heard nor seen the motorcycle.

GET INSTRUMENTS FOR SCHOOL BAND

Instructor to Train Musicians Expected in Menasha on Wednesday

Menasha—The new band instruments recently purchased by the local high school have arrived from the Holten company of Elkhorn and are being checked over by L. E. Kraft, who will have charge of the band.

Several townspeople, faculty members and pupils who have seen them are more than enthusiastic over the instrumentation which consists of 12 clarinets, 4 cornets, 2 trumpets, 4 saxophones, 4 melophones, 4 trombones, 2 alto, 2 bases, 1 Holtonphone, 1 piccolo, 1 flute, 1 bass drum and 1 snare drum. In addition to these 12 pupils have their own instruments, thus making a 51 piece band.

An instructor from the company will arrive Wednesday and the band will be started this week.

BAY SCOUTS SPONSOR THEATRE PERFORMANCE
Menasha—At a meeting of the Wooden Ware scouts at the company's cafeteria Monday night a resolution was adopted thanking E. M. Sizer for the splendid spirit of cooperation he has shown in permitting the boys of St. Mary church and the Wooden Ware company to sponsor the play which the boy scouts helped Fred Thompson to prepare. "A Regular Scout" which is to appear at the local theatre in the near future.

It is hoped that with the amount the Wooden Ware scouts will have to their credit from the troop funds and their share of the proceeds of the play they will have enough to practically take care of their expenses while at the scout camp during the vacation period.

Loyle Eckrich was elected senior patrol leader and Raymond Francis, scribe. The boys also gave Earl O'Brien a vote of thanks for the interest he has shown in the troop. They enjoy the clever and humorous way in which he gives his bedtime stories.

Fred Holtschnecht, assistant scout master, has arranged for an inter-patrol rally which will be held at the Wooden Ware cafeteria next Monday evening.

DRINK WATER IF KIDNEYS BOTHER

Take a Tablespoonful of Salts If Back Pains or Bladder Is Irritated

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush out the body's urinous waste, get four ounces of Jad Salts from any pharmacy here. Take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush the kidneys and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure and makes a delightful effective-lithia-water drink.

EUROPEAN BORER SERIOUS THREAT TO CORN BELT INDUSTRY

PEST ESTABLISHED OVER LARGE AREA IN UNITED STATES

Fairly Intrenched Along Eastern Border of Corn-Raising Farm Territory

BY W. F. WINSEY
Special Farm Writer

The European corn borer, brought into this country ten years ago in shipments of ivory corn, is now thoroughly established in 110,000 square miles of territory known as the Lake Erie region, which extends a considerable distance into Canada on the north, includes the western half of New York state, the northwest quarter of Pennsylvania, the north one-half of Ohio and involves large fractions of Michigan, Indiana and a dip into Illinois. It is said to be boring its way into the principal food supply of the 115,000,000 people of the United States. It is now fairly intrenched in and along the borders of the corn belt and threatening to destroy the corn crop of that section, if its potential ravages are not checked.

From 1912 to 1921, the corn crop averaged 2,572,000 bushels. In Essex and Kent-County, Ontario, where the borer is at work, most of the fields have an average of over twenty borers to the plant and practically every tassel has been broken off; every leaf has been killed and either fallen or hung close to the stalk; the ears have broken down, about one-third of them rotted, the remainder are stunted and most of them riddled by borers; the stalks are punctured by borer holes, have numerous castings on the outside and are tunneled on the inside in all directions. The result is that almost every plant has died long before it was mature and many of them have broken over, thus forming a tangled, filthy mess almost worthless as food for cattle and fit only for hogs to run in and feed upon whatever scraps have escaped destruction. (Larviculture description of the summer of 1925.)

THREAT TO INDUSTRY

If the threatened spread and possible ravages of the corn borer are not checked the basic industry of the corn belt and other sections will be seriously crippled. But corn-raising, the foundation of other industry, is closely related to other agricultural industries of this country. The industry of destruction of the corn borer, the injury or destruction of the other, beef, hog, poultry and dairy production get their support from the cornfields and corn is sold as beef, pork, chickens, milk, other dairy products. It is said that last year the corn crop was valued at \$225,000,000; animal products, \$2,165,000,000; hogs, \$1,050,000,000; cattle, \$1,165,000,000; poultry, \$600,000,000; and dairy products, \$1,415,000,000. These big figures represent the value of the staples in the food supply of the nation that are threatened and may be reduced by the onward advance of the corn borer into the heart of the corn belt and involve business, little and big, land values and credits.

G. L. Christie, chairman of the executive committee of the National European corn borer commission, says "that land values in the region of Ontario, Canada, have been decreased from 25 to 50 per cent. In Essex-County, Ontario, where the annual average of corn was more than 100,000, only 8,000 acres were grown last year and much of this was a total loss, in the region around Chatham, Ontario, the corn fed hog is a relic of the past. Farmers there who were producing from 200 to 400 hogs each year, now have a single hog this year." The work of the corn borer has brought on these changes.

DESCRIPTION OF PEST

The description of the corn borer given in a pamphlet, Look for the European Corn Borer, issued by the Agricultural Experiment Station, Wisconsin, is as follows: "The European corn borer is a worm which bores in stalks, tassels and ears of corn. It comes from eggs laid by a yellowish-brown moth with irregular dark lines running across the wings. These moths fly in early July in the infested regions, but are scarce to be seen as moths boring in the stalks. While in the corn, the borer grows from a very small grey worm up to a length of about one inch. The color is grayish white, sometimes slightly pinkish and there are two dark brown spots on the back of each segment or joint, which make about ten pairs of these conspicuous spots.

"Toward fall, as the borers become full grown and the stalks dry up, the worms work downward in the stalks until they are in the larger roots. They spend the winter as full grown worms, change to pupae or resting stage in the spring and then to moths which in turn lay eggs for a new generation."

MANY FARMERS BRING FEED FOR GRINDING

Appleton—According to W. Spoel, in charge of the Cereal mill, farmers are having large quantities of corn, oats and barley ground and there is a considerable demand for bran, ground corn and oats mixed, balanced ration for dairy cattle, all and cotton-seed meal and chicken feed. One popular balanced ration for dairy cattle contains oil meal, cotton seed meal, bran, ground grain, ground grain products, cane molasses, and minerals consisting of calcium carbonate, bone meal and salt. The price of this ration last Saturday was \$35 a ton. The prices of other feeds on the same date were: Bran, \$31 a ton; ground corn, \$35; ground corn and oats, mixed, in equal parts, \$36 a ton; shelled corn in bushels, 50 cents; and in 25 bushel lots or over, \$7 cents a bushel; oil meal in ton lots, \$52 a ton; cotton seed meal per ton, \$11; gluten for cattle \$30 a ton; oat feed, a by product in the manufacture of oat meal that formerly sold at \$8.00 a ton, now sells at \$15.00 a ton; meat scraps for chickens, \$14.10 a hundred.

MUCH HERD HIGH IN UNION-WAUPACA T. A.

Record of Association During Past Month Shows Great Improvement

Weyauwega—Records of the Union-Waupaca County Cow Testing association show much improvement in production during December over the November record. During December there were 310 cows on test, 32 being dry. The association average, including the dry cows was 121 pounds of milk and 15.6 pounds of fat.

Of the 49 cows credited with over forty pounds of fat, L. P. March owned 12, L. A. March 11, Emil Winter, 11, H. March, 11, Art Lueck, 11, Paul Klipschke, 11, Ed Lucht, 11, August Nussall, 11, Art Lucht, 11, Emil Miller, 11, Richard Peltzer, 11, Ed Steinbach, 11, Herman Werth, 11, Albert Ferg, 11, John Dretke, 6, and Otto Steinbach, 5. L. P. March had the high herd, his cows showing an average production of 11.91 pounds of milk and 45.6 pounds of fat, in a herd of ten cows. Mr. Fuch's herd was tested for 48 hours, to enable him to check up on the first days test. The second day showed a much higher average than the first. Harry Niemuth had second high herd, consisting of cows with an average of 37.5 pounds of fat.

WILL HOLD BULL SALE AT MADSON BARN, FEB. 16

At a meeting Tuesday at Robert Anderson's office at the courthouse, considering the second bull sale to be held this winter, decided to hold the sale on Feb. 16 at Mr. William Madison's barn on E. Washington st. Twelve breeders will consign. 22 bulls for the sale. Emory Meitz is to be auctioneer.

"areas," says the same bulletin, "are (a) destruction of stalks; (b) late planting; (c) the distribution of insects that feed on the borer. As the borers spend the winter in stalks, any method which will destroy the latter will dispose of large numbers of borers. Putting corn in silos is effective as well as feeding it directly. If the stalks are cut late and the stubble left long, it must be thoroughly plowed under with no corn refuse showing on the surface of the ground or the borers will survive the winter and develop into moths in the spring ready to lay eggs on the new crop."

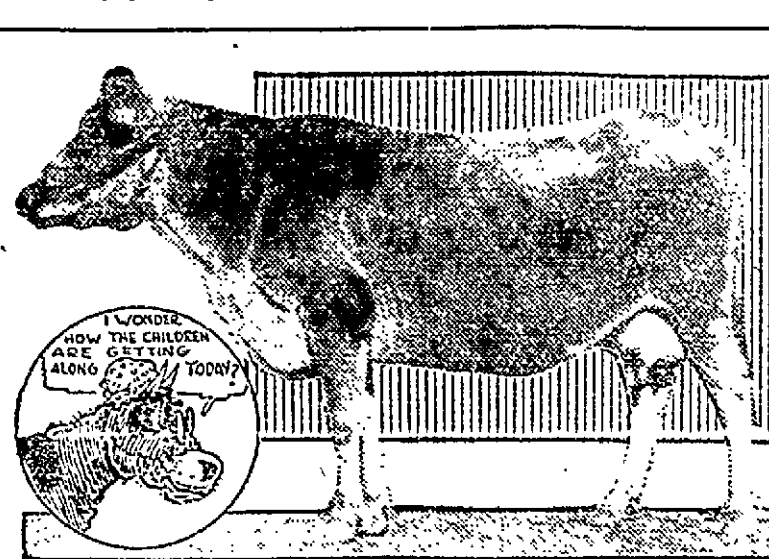

Quarantine laws also are in effect about infected areas to prevent the corn borer from being conveyed to new territory in shipments of corn and the federal and state governments are devising methods to destroy the borer assisted by the agricultural experiment stations of states and nation.

QUARANTINE ORDER

The quarantine order includes the recently discovered infestations in Kaniksee-County, Ill., Berrien-County, Mich., and the state of Connecticut in addition to providing for the destruction or return to the shipping point of all ear corn imported in violation of the federal quarantine which covers nearly all the northeastern United States from Kalamazoo, Michigan and Fort Wayne, Indiana, to Massachusetts and Maine.

An inspection certificate from the United States department of agriculture is also required on all shipments of the quarantined parts of the fourteen infested states, and any unsupervised shelled corn brought into Wisconsin from these infested areas is subject to destruction or return to the shipping point.

MOST CONTENTED COW IN U. S.

Towanda, Pa.—Laura, mother of 19 heifers and a bull, has found contentment after 23 years of strenuous effort.

All her life Laura has been on the McManus brothers' farm here. Charles McManus picked her as champion of his herd in 1905.

Now you can't buy Laura for \$10,000. She lives in peace with 12 of her daughters, 16 granddaughters and 41 great granddaughters all in one stable.

Only three of Laura's teeth remain, but her eye is bright and her step is firm and deliberate.

She has been a persistent milker for a score of years and in her twentieth year made a record of 405 pounds of butterfat. According to testers' figures she still pays \$2.12 for every dollar spent on her.

BUTTER MARKET HAS ERRATIC TENDENCY

Cheese Industry in More Favorable Condition Than Last Year

Madison—(C) Erratic conditions prevailed on the butter markets during the past week, according to the state department of markets in a weekly report.

"At the beginning of the week," the report stated, "several fractional declines in the prices of the butter grades took place as a result of lack of buying interest and fairly liberal offerings. Toward the end of the week fractional advances occurred on top grades and trade was fairly active. The week closed with trading slow. Buyers operating on a hand to mouth basis. Supplies were ample to the light demand. Demand for butter during the week was both of a consumptive and speculative nature. In contrast to the top grades cheap butter was in light supply and wanted throughout the week. Fresh centralized cars were in light supply. 'Old cars' were in fair to good demand. Fresh centralized cars were above buyers' idea of value and trade was dull on this class of butter. Butter prices are about 5 cents higher than last year at this time.

"The report of the cold storage cheese holdings on January 1, 1927, released by the U. S. Bureau of Agricultural Economics during the week showed a decrease of four million pounds during the month of December. The total holdings as reported for January 1, 1927 were 54,495,000 pounds, a decrease of 5,362,000 pounds from the previous January. The cheese industry is reported to be in a more favorable position than last year. Storage holdings are nearly four million pounds lighter and current receipts are not equal to those of a year ago. Present prices are higher than at any time during 1926 and it is interesting to note that price action is gradually increasing. It should be remembered in this connection that production is to a certain extent regulated by price levels and there can be no doubt that a period of favorable prices will cause milk to be diverted from other channels to the making of cheese. In fact, it is reported that a few factories which have for some time been turning their backs to the production of cheese, are now about 2 cents higher than last year at this time.

"The hog market was firm during the past week. Receipts were smaller but there was a decrease in shipping demand so that no changes of any consequence in prices took place. Hog prices are about 20 cents higher than last year at this time.

HOG MARKET FIRM

"The cattle markets were uneven during the past week. Choice grades advanced from 25 to 40 cents as a result of scarcity; on the other hand the supply of intermediate grades—short-cut steers of light and medium weight was liberal and prices on these grades declined. Cattle prices in general are 40 cents higher than last year at this time.

"Liberal supplies and a slow dressed trade caused a decline of about 15 cents as compared with the previous week on the short market. Cheap prices in general are 25 to 35 lower than last year at this time.

WILHARMS HERD DRAWS MANY OUTSIDE BUYERS

Appleton—In explaining the cause for the existence of two brood sows on his farm, John Wilharm, proprietor of the Pine Grove Dairy farm, route 2, 23 Broadway, said: "A farmer must have a little of everything in order to make farming pay, now-a-days." The chief farming occupation of Mr. Wilharm, however, is dairying. He has a herd of 25 grade Holsteins, including 15 milk cows. As producers, his cows have made such good records that he cannot with his surplus animals support the demands of outside buyers, to whom he has been selling in the past. A number of his cows have produced 40 pounds of butterfat in a month. He is now milking 10 cows but will soon be milking 15. Beside the sweet milk for three calves, he is disposing of 25 pounds of milk each day. During the best producing season of the year, he gets 500 pounds of milk daily. The milk test at present time is 3.8 per cent. Mr. Wilharm is feeding his cows mixed clover and timothy, as much silage as they can eat up and a balanced ration on top of the silage, consisting of 2 parts bran, 3 parts ground oats, 1 part ground barley, one part of meal and one-half part middlings. He discontinues feeding silage and the balanced ration, when the cows are on good pasture and starts again if the pasture gets short or dries up.

MANY SUBJECTS TO BE COVERED DURING HOMEMAKERS' WEEK

131 Speakers to Appear at Madison During Farm and Home Conference

BY W. F. WINSEY
Special Farm Writer

The program of the annual Farmers' and Homemakers' week to be presented in Madison from Jan. 31 to Feb. 1, under the management of the Wisconsin College of Agriculture, is out and has been mailed quite generally throughout the state. It is a 16-page pamphlet with the drawing of farm buildings and factory buildings standing opposite each other and held together by the slogan, "Farm and Factory Should Prosper Together."

Including duplicates, the program contains the names of 131 speakers, their subjects and the day, hour and place of each speaker's appearance. Among the speakers are the names of the governor of the state, Fred Zimmerman; the president of the university, Grant Frank; commissioner of agriculture, John D. Jones; editor of Drovers' Journal, Chicago, Charles Snyder; commissioner of markets, Edward Nordman; Miss Gertrude Warren, United States department of agriculture; Elizabeth Yerna; state board of control, Dean H. L. Russell; G. T. Christie, Purdue university; Helen M. Bennett, women's world fair, Chicago; R. H. Hubbard and T. Blackman. Such a wide range of subjects is covered by the 131 speakers that in the stretch between operating a farm and governing a state but few activities are omitted.

The annual Farmers' and Homemakers' week is the big popular, educational and inspirational week of the year. But instead of a "week" it is rather an event which each year attracts farmers and other producers from this state and the nation at large. When the week is on, the one class goes to Madison to get the latest scientific advances in its special industry and the other to spread them as widely as possible.

Large delegations from this vicinity usually attend the exercises of Farmers' week and this year, according to reports, will be no exception.

OUTAGAMIE-CO ONE OF 25 IN SOIL TEST

Outagamie-County is one of the 25 northern Wisconsin counties in which detailed soil surveys have been completed.

Soil surveying of Wisconsin counties has been in progress for over ten years, during which time two kinds of survey work have been carried on. In the northern part of the state a preliminary survey was first made to show, in a general way, the distribution of the main soil areas. This survey covered 29 northern counties north of a line along the north side of Buffalo, Jackson, Wood, Portage and Waupaca-co.

Officials of the state soil survey report that in the southern portions of the state detailed surveys are being made of each county. Up to the present time surveys have been completed and maps made for 25 counties including Buffalo, Jackson, Wood, Portage, Waupaca, Outagamie, Kewaunee, Door, Lacrosse, Juneau, Adams, Waushara, Fond du Lac, Columbia, Washington, Ozaucque, Shawano, Waushara, Jefferson, Dane, Iowa, Rock, Walworth, Racine and Kenosha-co. They report that field work has been completed and maps are being published for the following counties: Monroe, Sauk, Green, Lake, Green, Sheboygan and Pierce.

TO AWARD PRIZES AT PLYMOUTH CONVENTION

The awarding of prizes in the Federation Annual Quality contest will be one of the features of the Thirtieth Annual Federation meeting to be held at Plymouth on Feb. 9 and 10. Over three thousand dollars has been appropriated by the Federation board of directors to go as prizes to cheesemakers and cheese factories.

These will be supplemented by prizes to the value of \$100, being given by the Wisconsin Live Stock Breeders' association, and a like amount given by the Chris Hansen Laboratories of Little Falls, N. Y.

Federation prizes include a gold medal for the highest scoring cheesemaker at each warehouse point, and special cash prizes to the highest scorers in the following classes: one at each factory on the basis of quality of cheese produced.

The Wisconsin Live Stock Breeders' Association is offering a gold watch to the highest scoring cheesemaker, all branches considered. It is also giving ten Methylene Blue testing outfits. To be awarded to the top makers, one at each branch showing the greatest improvement during the year as compared with 1925.

Jed Murray, Secretary of the Association, will make the presentation in behalf of the association.

CHICKEN SET EGG MARK

Poultry demonstration farms in Ohio finished the year with the highest average egg production ever reported for so large a number of hens. The average for the year was 143.6 eggs for each hen.

SHIP TEN LOADS OF CABBAGE HERE EVERY DAY

Practically all stored cabbage will have been shipped from this district within the next three weeks, according to local produce buyers. Cabbage is now selling at \$15 a ton and approximately 10 carloads per day are being shipped from Appleton, Greenville, Mackville and other nearby villages to Chicago.

This number will decrease rapidly within the next three weeks and practically all of the cabbage will have been shipped within a month. Southern growers are beginning to market their crops and these shipments may cause a decline in the price of cabbage here, although usually the entire cabbage crop from this vicinity is exhausted before the southern crop gets on the market.

The highest price paid for storage cabbage during the past season was \$18 while \$15 was the lowest paid. These prices are about the same as last year.

CABBAGE ONLY CASH CROP ON HIS FARM

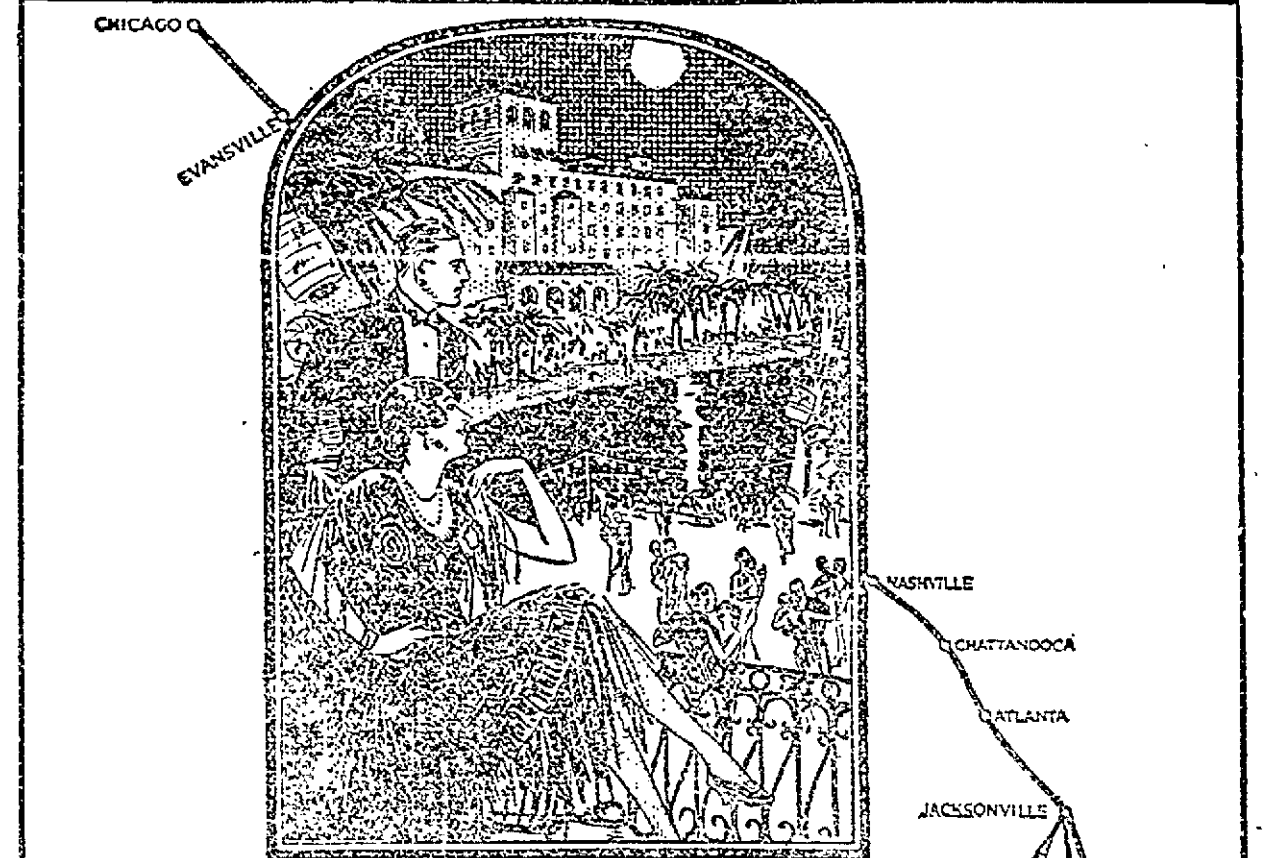

Appleton—Twelve tons of cabbage including an early variety sold in October at \$7 a ton and a late kind, sold Jan. 17 at \$15 a ton. It is part of the demand of outside buyers, to whom he has been selling in the past. A number of his cows have produced 40 pounds of butterfat in a month. He is now milking 10 cows but will soon be milking 15. Beside the sweet milk for three calves, he is disposing of 25 pounds of milk each day. During the best producing season of the year, he gets 500 pounds of milk daily. The milk test at present time is 3.8 per cent. BUYS EIGHT HOLSTEINS FROM WINCKLER FARMS

Medina—A short time ago, an export New York stock buyer, Mr.

Smith visited the Winckler Holstein-Precision cattle farms and purchased eight head of 4th-sired Holsteins, these animals carrying the famous Cansby blood lines, on which Mr. Smith is building his herd. Other animals intended to fill a car were selected in Wauwata-co with the assistance of John Erickson.

Only three potato growers qualified for membership in the New Hampshire 500 Bushel Potato Club this season.

"Sequence calls" sold \$82,500 worth of bonds

IN BRINGING out a new bond issue, a Cleveland financial house regularly files with the long distance operators from 50 to 100 sequence calls to banks and investment firms in other cities. The calls come in in one-two-three order. As one is finished another is put up, so that a great number of calls can be completed within a given time. For one such issue, 47 calls were filed . . . 45 were completed. Charges, \$40 . . . sales, \$82,500.

"Sequence lists" are another convenience worked out to increase the effectiveness of long distance campaigns and to save the time of the telephone user. Would it be worth while to make a thorough check of your various departments and executives to see if the telephone is bringing its full resources to bear upon your business?

A Commercial Department representative will be glad to explain the use of sequence lists and consult with you concerning what long distance calls can do for your business. And now, what distant call is there that should be made? Seventy thousand communities are within your reach by Bell Long Distance Service.

Two Floors of Good Things to Wear

Broken Threads

WHAT HAS GONE BEFORE
To the home of PROF and MOL-
LIE ELWELL in Canderville, Ind.,
one night in October, 1898, comes a
nurse, bearing a woman who had
fainted on a train.
Elwell is an artist. He has a son,
JIM, aged 5. Late that night the
woman bears twin girls and dies with-
out revealing her name.
The story then moves forward 18
years. The twins, now growing to
beautiful womanhood, have been
adopted and named MARGARET and
ELIZABETH. They are called RUS-
TY and BETTY.
Jim enlists in the World War. He
then discovers one of the twins loves
him. Put in charge of a machine gun
unit, he is shell-shocked at Sedan, and
through a mixup, is registered as
JOHN POWELL. He is removed to an
American hospital and reported
dead.
It is discovered that the father of
the twins is dead and that they are
the nieces and heirs of JOHN CLAY-
TON, wealthy retired banker. While
the twins are visiting Clayton's home,
the Elwells get word that Jim is alive
and in a New York hospital, and their
grief is turned to joy.
While they are on their way to
New York the story goes back to
where MIKE HENNEGAN, ex-soldier,
is taken by nurse NELLIE
DOWNING to the hospital where Jim
is. There they are told about his
strange case.
NOW BEGIN THE STORY
CHAPTER XXV
"What he has been taught so far,"
the superintendent continued, "con-
sists in getting into his coat and shoes
and drawing on his socks and shoes
and eating in the way I've described.
Those things he now performs of his
own volition, poor fellow. You will
find him very tractable and an easy
patient to handle."
"As for any understanding of what
is said to him, a fox terrier is a mar-
vel of intellect in comparison," Nel-
lie Downing winced.
"Only his physical brain functions,"
said the superintendent. "There is
no sign of real mental activity what-
ever. It is thought that an operation
possibly might restore him to normal,
but such an operation, on the other
hand, would be exceedingly dangerous
and perhaps fatal. The trouble, doubt-
less, is the result of a blood clot on the
brain or else some connecting fiber
in some way was broken by the terrific
shock of a heavy shell explosion."
"There were nothing we can do?" Nel-
lie Downing asked.
"Nothing that I know of." If it
was a blood clot, the superintendent
told her, another similar shock
might, so the specialists had said,
shake it loose and bring back his
memory.
"But it would be purely accidental
if it did." Now, if you wish, I will
have him brought in here, but there
isn't a chance in a million that he
will know you or would know any
person he had ever seen before. In
my opinion and in the opinion of two
specialists who have examined him,
he might far better have been killed
 outright."
He called an orderly and instructed
him to bring John Doe Number 2
into the reception room. The orderly
went out and Nellie Downing's eyes
met those of Mike Hennegan.
The orderly returned in a few min-
utes and Nellie Downing rose with an
impulsive little cry as her gaze rested
on the man she had seen carried out
of the hospital in Metz, a shaken
wreck.
She started forward but before she
had taken a step her ear drums were
almost split by a whoop in her ear.
Mike Hennegan had been sitting in
his chair when the patient was
brought in and had glanced up with
only casual interest. But suddenly a
great change came over him. He
started up, his face wrinkled in sur-
prise and his mouth fell open. Then
he gave vent to his war whoop and
rushed past Nellie Downing like a
huge projectile hurled from a cata-
pult.
"For the love of Saint Pat," the
nurse heard him yell in a raucous
bleat as he grabbed the shell-shocked
soldier's hand in a pump-handle
shake. "If it ain't me old buddy,
Jim Elwell! Who in hell would ever've
dreamed of this? Me old sidekick,
Jim! Put 'er there, old top, put 'er
there!"
The heart of Nellie Downing rose
up in quick, thrilling leap as she
heard the words of recognition. But
it sank again the next instant as she
noted the total lack of any aroused
memory in the eyes of the man Mike
had called Jim Elwell.
Those eyes looked at Mike Henne-
gan and merely stared. His hand had
come out mechanically into Mike's
grasp. He was unsmiling, unmov-
ing, like some pale wooden soldier.
Mike had not yet noticed all this.
His heart was sounding the bugle
call of reveille in his excited brain,
which at that moment held nothing
but the glad knowledge that his old
buddy stood before him.
"Well, I'm a son of a gun!" he went
on, his grin still stretching from ear
to ear, still pumping the staring sol-
dier's hand. "Now, what do you know
about this? Don't you remember me,
Jim—yer old pal Mike, that fought the
cooties with yuh half way across
France an' then got gassed at the foot
of Belleau Wood? Don't you remem-
ber me—an' the French quartet what
used to sing all those crazy danc-
es? You remember, Jim—?"
He stopped short. The happy look
on his freckled face faded. The grin
vanished and the mouth sagged. It
had suddenly dawned on him that he
was jabbering away to a man who
heard him not, or if he had heard,
the brain that caught the words reg-

show his place of residence and the
name of his parents. I'll take time,
of course, to look them up, but they
can be obtained. I'll dictate a letter
to the war office at once."
"No," said Nellie Downing with sud-
den decision. "The wheels in the war
office move too slow. I'll go to Wash-
ington myself and I'll leave tonight
on the midnight train. That will get
me there in the morning. I met the
president once, just before I went to
France, and I know he'll help me to
get this matter straightened out. We
won't waste time writing letters."
The superintendent smiled at her
impetuous words. Getting to the pres-
ident on a matter like this wasn't
easy, even for people who had met
him.
Miss Downing turned and studied
for a fleeting moment the freckled
face of the man she had staked to
twenty dollars that morning.
"Mike," she said, speaking slowly,
thoughtfully, "you have earned your
keep today and that's more than
you've done for some time. I'm afraid
you need a job. You need it for no
better reason than to keep you out of
trouble. How would you like to re-
main here and look after your friend
Jim until I return from Washington?
Perhaps if you show yourself useful
enough, Mr. Burton here might give
you a regular job around the hospi-
tal."
The superintendent was not slow
to grasp suggestions. "We need an
elevator man," said he, and a broad
smile spread across his features as
he surveyed the big Irishman. "It's
eight hours a day, sixty dollars a
month, room and board. How would
you like it, Mike?"
"I'm hired," said Mike, his grin
again threatening the lobes of his
ears. "When do I eat?"
Mr. Burton laughed and looked up
at the clock on the wall.
"You eat in forty-five minutes," he
declared. "The gong will sound off
for you. In the meantime," he added,
"you might take Jim Elwell out for a
walk. We'll wait till Miss Downing's
return before you go to work."
"Did he hear that, Jim, ol' topper?"
yipped Hennegan as he grabbed his
old buddy by the hand again. "It's
me an' you for a little stroll. An'
then we eat. The last time we sat
down together it was a mulligan stew
o' salt horse. Maybe it'll be pork
chops this time."
Over Jim Elwell's mouth there play-
ed a small, uncertain smile. At sight
of it an agonized cry broke from Nel-
lie Downing, for though his lips smil-
ed, his eyes—those staring eyes—were
devoid of recognition or interest. They
just looked out in front of him—win-
dows that opened out on a dead world

STAGE And SCREEN

THE GROSS ROSS PLAYERS NOW

AT THE FISCHER'S APPLETON
The Gross Ross Players who opened
a week at the Appleton theatre, com-
ing directly from the Garrick theatre
where they have just completed a sea-
son of metropolitan stock. The com-
pany comes here with the same mem-
bers in its cast that it had in Milwau-
kee. Headed by Miss Myrtle Ross, who
has been the leading lady at the Gar-
rick for two years, the company in-
cludes the following people: Herbert
Duffy, Frank Altenberg, Billy Dale,
Don Merrifield, Ralph Percyfield, Man-
fred Gross, Mary Lyons, Alice Ander-
son, Hazel Merryman, Nina Flaisig.
The plays to be offered during the
week will be "The Gorilla," "Parlor
Room and Bath," "Broadway and But-
termilk," "Strange Bedfellows," and
"The Jazz King."
The Gorilla is that famous mystery
savage by Ralph Spence. It has
achieved success of a most extraordi-
ary character throughout the coun-
try. The Gross Ross Players present-
ed in Milwaukee, but, because of the
unusual interest in it, ran it for two
weeks to complete capacity. It at-
tends is evidence of value—and, of
course, that is the best test—"The Gor-
illa" occupies the highest position
among American plays of today. The
Gorilla opens Monday.
Other plays are "Parlor, Bedroom and
Bath"—this is without fear of contra-
diction, the fastest moving and funn-
iest farce that has ever been written—
"Strange Bedfellows," the Henry Miller
theater success written by Larry Com-
pens, author of "Applesauce," "Broadway
and Buttermilk," a rural comedy writ-
ten by Willard Mack that served as a
starring vehicle for Blanche Ring;
"The Jazz King," a comedy with songs
having the sentiment of the music
master and the humor like Abie's Irish
Boss.
Here is a repertoire of plays that
represents a varied and meritorious
entertainment. And offered by a cap-

able company such as is seen in the
metropolitan centres.
Reservations can be made in ad-
vance for every evening.

FORD "REFORMED" IN

"HELL'S FOUR HUNDRED"
Harrison Ford, who gave the screen
a convincing portrayal of a profligate
role in Fox Films "The Wheel," which
proved one of the cinema sensations
of the season, has returned to Fox
Films a reformed man. "Hell's Four
Hundred," the dramatic film version
of Vaughn Kester's "The Just and
Unjust," a novel of Broadway night-
life, shows him as the district attor-
ney who has started a reluctant
clean-up of vice dens. This picture
will show at the New Bijou Wednes-
day and Thursday.
Margaret Livingston is starred as
Evelyn Vance, cabinet girl of The
Back Stage Cafe and she is used as
the lure in a trap to catch the pro-
secutor. She finds Marshall Langham,
profligate brother of the district at-
torney's rich fiancée is "bigger
game" and hooks him, but he proves to
be a forger and while the cabaret
girl is conferring with the prosecutor
the forger, Langham kills John Gil-
more, the vice boss, whose name he
had used.
The circumstances all indicate that
the prosecutor is the slayer and he is
arrested, but in leaving the city Lang-
ham is fatally injured. He confesses,
clears the prosecutor just before he
dies and leaves the cabaret girl just
where she was before he met her.

Cured His Rupture

I was badly ruptured while lifting a
trunk several years ago. Doctors said
my only hope of cure was an operation.
Trusses did me no good. Finally I got
hold of something that quickly and
completely cured me. Years have pass-
ed and the rupture has never returned.
Although I am doing hard work as a
carpenter, there was no operation,
no lost time, no trouble. I have noth-
ing to sell, but will give full informa-
tion about how you may find a complete
cure without operation, if you write
to me, Eugene M. Pullen, Carpenter,
250 N. Marcellus Avenue, Manassas,
Va. I better cut out this notice and
show it to any others who are ruptured
—you may save a life or at least stop
the misery of rupture and the worry
and danger of an operation.

Finish Plan For Party For Mentors

Plans for the teachers to be given by the board of education with the assistance of the Appleton Women's club and the Knights of Pythias of Pythian lodge at Castle hall Friday evening have been completed by the committee in charge. Members of the committee were selected from the club by the chairman, Mrs. S. C. Shannon and Mrs. L. J. Marshall.

Admission to the party will be by card only, it was announced. Invitations have been sent to teachers, office secretaries in the school system, and husbands of teachers, the board of education and their wives, the board of directors of the club and their husbands, officers of the lodge and their wives, and a list of men.

As the number of women teachers is larger than men, outside help was asked in order to give the teachers as nice a social time as possible, the chairman said.

Dancing and cards will be included on the evening's program.

MEN'S CLASS AT M. E. CHURCH IS HOST AT DINNER

The Friendship class of First Methodist church will entertain men of the church and men from the Methodist churches at Kaukauna, Neenah, Menasha, Clintonville and New London at a "men's old fashioned dinner" at 6:30 Wednesday evening in the dining room of First Methodist church. Dr. Henry M. Wriston, president of Lawrence college, will be the principal speaker. After the dinner the Valley Male quartet composed of George Nixon, Charles Nelson of Appleton, Fred Nixon and Charles McEwen of Neenah will sing. Miss Lois Kiochin is to give a reading. The menu for the old fashioned spread will consist of baked beans, corn bread, salt pork, maple sirup and ice cream.

After the banquet and program, the Neenah Methodist church volleyball team will play the Lawrence college professors team at the college gymnasium.

L. C. Phillips is chairman of the committee in charge of arrangements for the dinner and Everett Wright has charge of the dining room arrangements.

CLUB MEETINGS

Bridge instruction will be given at the Appleton Women's club Wednesday evening by Mrs. William F. Maude, Mrs. Henry Madsen and Mrs. Maude Gribbler. Beginners and those who play but would like to know more of the scientific principles of the game have been urged to attend these "bridge nights" at the club.

Nine members of the Novel-History club were served at the dinner at 6:30 Monday evening at the home of Mrs. William Edgar, Beloit-st., which was given in honor of the twenty-sixth anniversary of organization of the club. After the dinner, the program was given. Mrs. E. Schmalz was in charge and gave, "History—Seventy-two Years Recollection of Wisconsin."

The social dancing club met at the Appleton Women's club Monday evening. Miss Marcelle Weber accompanied at the piano. Eight members of the club were present.

Mrs. R. M. Bagg, 16 Brookway, was hostess to the Monday club Monday afternoon. Mrs. Amelia Finkle had charge of the program and read "No Thoroughfare," by Dickens.

The Tourist club met Monday afternoon at the home of Mrs. F. E. Holbrook gave the program on "Sainte Genevieve," "Saint Etienne-du-Mont," and "The Pantheon."

Lady Eagles will observe monthly guest day at 2:30 Wednesday afternoon in Gil Myse hall. Friends of Lady Eagles are invited. Schafkopf and bridge will be played. Mrs. Mary Peters is chairman of the committee in charge and will be assisted by Mrs. Roy Zuehlke, Mrs. A. Fredericks and Mrs. John Burke.

Pictures of Canada were shown by Prof. John Mac Harg before members of the Clio club and Tourist club Monday evening in his room at Lawrence college. About 35 members of the two clubs attended. Mrs. John W. Wilson gave a short explanation of the pictures as they were shown by Prof. Mac Harg. Two movie reels on Lake Louise and the Canadian National park at Banff were shown and pictures of Spain were shown.

Miss Aimee Baker, 408 N. Rankin-st. will be hostess to the Town and Gown club at 3 o'clock Wednesday afternoon. Miss Mary H. Fretts will have charge of the program on "India."

CHURCH SOCIETIES

Dr. H. F. Peabody, pastor of the First Congregational church, led the discussion on the Social Principles of Jesus at the weekly meeting of the Young Married Group of the church Monday evening. A book by Rauschenbush is used as a basis for the study.

"The Teachings of Jesus" was the title of a new book started by the Plymouth club of the First Congregational church Monday evening at a meeting at the home of Mr. and Mrs. Henry Madsen, E. Hancock-st. The study will be continued at future meetings of the group.

Partly cloudy tonight and Wednesday; colder tonight, and in southeast portion Wednesday.

WEATHER CONDITIONS
The pressure is high over almost the entire country this morning, with temperatures near the seasonal normal. The center of high pressure overlies Manitoba and the northern plains region, with low temperatures in that section. This appears to be moving slowly southward and will cause generally fair weather in this section tonight and Wednesday, with somewhat lower temperatures tonight.

First construction on an 81-story tower, proposed as the tallest building in the world, will begin in Detroit in January.

Home-made Remedy Stops Cough Quickly
Finest cough medicine you ever used. Family supply easily made. Saves about \$2.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant—children like it, and it is pure and good.

Four 2 1/2 ounces of Pinex in a pint bottle, then fill it up with plain granulated sugar syrup. Or use clarified honey, instead of sugar syrup. Thus you make a full pint—a family supply—but costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heats the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid, too, for bronchitis, hoarseness and whooping cough.

Pinex is a highly concentrated compound of Norway pine extract and palatable guaiacol, famous for healing the membranes.

To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with directions. Guaranteed to give absolute satisfaction, or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

SPIRITISM UNDER SCIENTIFIC EYE, LIONS ARE TOLD

Lawrence Instructor Explains Investigation of Physic Phenomena

There is a scientific basis for the "subconscious mind," "medium" and other psychical phenomena discussed by spiritualists today, Dr. Arthur H. Weston, professor of classical languages at Lawrence college, said in an address on Psychical Research at the weekly meeting of the Lions club at the Conway hotel Monday noon. Dr. Weston has studied the subject extensively, has attended seances and has interviewed many of the better known spiritualists.

Psychic phenomena were taken at their face value until recent years without any serious attempt to establish their truth and falsities, the speaker said. The ancients did not question them and the modern age accepted their predecessors' conceptions a priori. It was not until the founding of the Society for Philosophical Research in 1872 that a serious effort was made to investigate psychical phenomena. Since that time the movement has spread and much valuable information has been discovered on the working and power of the human mind.

STUDY POWER OF MIND
The powers of the mind, particularly of the subconscious mind were discussed in their relation to dreams, hallucinations, etc. It is these phenomena that have been studied

She Could Never Have Done It With Piles!

Bless the American girl who has suffered all the sport! She makes a pretty picture in the water, and is a plucky swimmer, too. Piles are unlikeable for active women. If you have them, you ought to know this simple thing to do. At any hour or moment that you have the least distress or discomfort from piles, use a simple Pyramid pile suppository—and go happily on your way. The worst hemorrhoids, even blood and mucus protruding piles respond at once to the soothing suppository applied in perfect privacy. But leave the name in mind; Pyramid is the only name that counts. He will sell his patrons. Pyramid is marvelous. He will suffer another simple suppository with each pile.

APPLETON SKATERS ARE ALMOST HIT BY TRAIN

Seventeen Appleton young men and women, returning late Sunday afternoon from Green Bay where they took part in the annual Northeastern Wisconsin Ice Skating championship events, narrowly escaped serious injury or possible death when the bus in which they were riding missed by inches being struck by a train at the crossing on Lawrence-st., DePere.

The bus had slowed down for an intersection crossing about 30 feet north of the railroad crossing, passengers stated, and its speed was then increased before reaching the railroad tracks. The windows were frosted and vision was not clear.

The approaching train, only a few feet away, was not seen until the bus was on the railroad tracks. The driver pushed down the accelerator and just managed to get the bus over the tracks as the train went by. The engineer stopped his train and the train crew came to investigate, believing the bus had been struck.

Turkish authorities recently issued that order that girls and young women wearing white dresses must not wear with them ribbons of blue or orange color. The reason is that the combination of these colors is to be found in the national flags of Armenia and Greece.

FINE FOR CHILDREN!

Give them a good start in life, with happy smiles and healthy little bodies. Children need a mild corrective occasionally to regulate stomach and bowels. Dr. Edwards' Olive Tablets are a safe vegetable compound mixed with olive oil. They tone up and regulate the eliminative tract. Not a nasty cathartic or a habit-forming medicine, but a safe pleasant remedy for constipation, sour stomach, torpid liver, bad breath, and similar disorders. Dr. Edwards, a widely known family physician of Ohio, prescribed these tablets for many years in his own practice. Children from six years up are greatly helped by them and like to take them. Recognized by their olive color, Dr. Edwards' Olive Tablets overcome those irritable spells that many children are subject to, keep their bodies in active healthy condition, their bodies in active healthy condition, skin clear and eyes bright with the light of perfect health. 15c, 30c and 60c sizes. adv.

When You Catch Cold
Rub On Musterole

Musterole is easy to apply and works right away. It may prevent a cold from turning into "flu" or pneumonia. It does all the good work of grandmothers' mustard plaster.

Musterole is a clean, white ointment, made of oil of mustard and other home simples. It is recommended by many doctors and nurses. Try Musterole for sore throat, cold on the chest, rheumatism, lumbago, pleurisy, stiff neck, bronchitis, asthma, neuralgia, congestion, pains and aches of the back of joints, sprains, sore muscles, bruises, chilblains, frosted feet—colds of all sorts.

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

Offers to Its Readers

Practical Booklets

For Daily Use in the

Home, Office and

School

THE useful, informative booklets issued through our Washington Information Bureau are announced from day to day in the columns of this newspaper, but many readers who did not secure them when the coupons were published may now get copies on these subjects.

For their convenience, and for those who want more copies, this list of recent offerings of booklets is published.

The booklets are neatly printed, 9 by 6 inches, many of them

handsomely illustrated, and contain between 16 and 64 pages. They are handy for reference, many people having little libraries of these instructive, helpful compilations of practical information. Some of them are official government publications.

The booklets are part of the free information service maintained at Washington for the use of our readers. Only a postage and handling charge of four cents each, in stamps or coin, is required to secure them. Select the ones you want and send in your order at once before the supply gives out.

Opening its Midwest conference season at Army G here Tuesday evening with its ancient rival, Beloit, Coach George Christoph's Lawrence college cage squad is a favorite because of the poor record of the Blue Devils to date. A 1.5 to the team which has lost six straight Midwest conference battles this year will rank the Blues even lower while a win will place them with Cornell and Carleton in the ranks of undefeated title challengers.

On the other hand Beloit has been improving rapidly since early season, when its shooting was weak, and now is able to give the conference leaders a hard fight. Hamline, considered a favorite, lost to the Blue Devils last week in which the Beloitmen showed an offensive strength not exhibited before during this season. The visitors also have the experience of six Midwest games, many away from home, while the Blues are entering their first big game.

Three new men became eligible at Beloit recently and this added new offensive strength to the extent that the Devils now rank with the rest of the loop in shooting power after being known for a good defense but weak marksmen. Garrigan and Dupee are better than ordinary shots, but the guards, Meyers and Van Dolah have been dropping most of the pointers to date, beside playing great defensive games. Meyers was the big star of the Hamline game and the Blues will have to cover him well. Lawrence's all-around power, in much the same way, is centered in its forward line, the forwards, "get into there" more each battle.

Christoph has been drilling the Beloitmen the last few days and they have responded with more speed and accuracy in passing than they have shown at any time before during the present season. Though the Blue passing was only fair, it beat Oshkosh Normal badly, a team which downed Beloit twice, and the new snap should send the Beloitmen through the Devils best defense.

Sundt probably will start at center for the Blue with Heideman and Clark at forwards, and Briese and Capt. Grove at guards. The other combination of Grove at center and Heideman at guard, with Sundt alternating at forward, also may be used and a third attempt to strengthen the team may see Hillman at center if Sundt cannot get the tipoff. If Hillman replaces Sundt, he probably will do the jumping and then drop back to Grove's guard the latter moving to the pivot post on offense.

Milwaukee—Howard Bentz, Milwaukee, beat Jack Schoendorf, Milwaukee, technical knockout (3).

Dempsey Must Fight Way Back To Scrap With Gene

BY JOE WILLIAMS
New York—Mr. Jack Dempsey is back in the headlines again talking about another bout of the digits with the great intellectual of the ring, Mr. James Joseph Tunney.

It would be much easier for some of us fellows who fell down and broke our precious noses last September trying to call the turn at the Battle of the Sequi to take Mr. Dempsey seriously if he would do more fighting and less talking.

What Mr. Dempsey needs now is the same thing that he needed before he climbed through the ropes to lose his crown to the fighting marine last fall—and that is some honest-to-John fighting under his belt.

If Dempsey comes back to the ring to meet Tunney without engaging in two or three legitimate warm-up bouts on route he will be beaten again just as badly if not worse than he was the first time.

He ought to be in there swinging loaded punches at the Sharkeys, the Malones and the Risikos all of whom, I think, would topple before his attack, inaccurate and rusty though it may be.

There are only two men in the field Dempsey need proceed against with caution. One of course is Tunney. The other is Jack Delaney, the light-heavyweight, a deadly sharpshooter who might have won from the Dempsey Tunney whipped just as easily as the present champion did.

HUBBARD REFUSES TO CHANGE CHARGE

Old Harvard Tackle Says He Can Prove Charges of "Dirty Football"

New York—(AP)—A willing "goat," for the sake of the game he loves, Wymant D. Hubbard, former Harvard tackle, Tuesday stood firmly entrenched behind his charges that Princeton played "dirty football" against Harvard in recent campaigns.

At the same time, however, new support was given the chorus of regret from Harvard sources by the announcement at Cambridge that the University in a letter to President Hibben of Princeton had "explored" the fact that Hubbard's article containing the charges was to be published in Liberty magazine.

President Lowell wrote Hubbard, Dec. 23 requesting that the articles be withdrawn. He had received information that Hubbard was preparing an article derogatory to Princeton. This Hubbard declined to do. The same month the Harvard head addressed a similar request to the Saturday Evening Post, Colliers and Liberty, but received no reply from the magazines.

President Hibben of the course he had taken, and added: "I hardly need tell you how much I deplore such an article."

SCORE OF 1,055 WINS A. A. L. MIXED DOUBLE

M. Brueggemann and Henry Kozitske walked off with first place in the mixed doubles tournament held Sunday on the Aid Association for Lutheran allies, rolling a score of 1,055, the only 1,000 score. E. Bell and F. Durant took second with a 972 mark. Seven couples took part.

The winners high mark was aided greatly by the work of Miss Brueggemann, who rolled ladies high single game of 192 and high series of 531. The work of the second place pair was aided by a 240 by Durant, mens' high single game of the meet and a 544, mens' high series.

The scores:
M. Brueggemann—192, 173, 166—531; H. Kozitske—169, 176, 180—524; E. Bell—126, 136, 156—418; F. Durant—160, 154, 240—554; G. Stach—153, 132, 116—406; T. Sauer—171, 197, 198—566; B. Schulze—129, 117, 149—395; Doc Goeres—159, 194, 197—550—945.
L. Brueggemann—153, 122, 156—431; H. Wichman—149, 149, 180—478; A. Wichman—113, 137, 113—363; W. Bell—161, 168, 196—525—588.
W. Selig—163, 119, 120—402; F. Reiten—157, 163, 153—473—886.

ENTRY LIST FOR K. G. MEET CLOSES THURSDAY

Ten Knights of Columbus bowling teams had their entries for the state Knights of Columbus tournament in the hands of Henry Otto, who is in charge of the meet, at the Monday evening. Ten more teams must send in their entries to complete the Appleton quota, Mr. Otto said. Pinner are urged to get their entries in at once as the lists close Thursday and the entries must be sent to tournament officials by Wednesday evening. Mr. Otto can be reached at the Cloude-Omans-Gage Co., phone 2903.

Good Condition Demand Of Successful Mentors

BY MARTY FRIEDMAN
Coach, World Champions
The two essential requirements of a basketball coach, in the order of their importance, are:

First—A thorough knowledge of the subject, both theoretical and practical, the latter the result of experience, and

Second—Possession of the knack of being able to impart this knowledge to others.

No matter how much basketball a coach knows, or how well he can play the game, this first essential in coaching would be worthless unless the coach be gifted with the power to impart this knowledge to those he is teaching.

On the other hand it would make little difference what ability a man had

TRIS, TY DECISION "WITHIN FEW DAYS"

Commissioner Says He Will Decide Status of Players Shortly

Chicago—(AP)—Vindication or baseball ostracism lies just around the corner for Ty Cobb and Tris Speaker. These two stars, the one with the baseball record that no other player ever held, the other a playing leader who took Cleveland to its only world's championship, are to hear the verdict of Commissioner Landis "within a day or two."

The decision Landis is to make probably will concern itself largely with the question: Was a Cleveland-Detroit American League game fixed as charged by Hubert (Dutch) Leonard, former Detroit pitcher. Both players have denied this charge and also assertions by Leonard that they planned to bet on the game. Vindication for the two was confidently predicted by supporters of Speaker and Cobb. They left for their homes Monday in much higher spirits than they have shown since the commissioner made the public charges.

Both, however, observed to the latter the orders of their attorneys not to talk. The two former managers, Cobb of Detroit, where he played since 1905, and Speaker of Cleveland came here for the "show down" meeting called by Landis, at which Ben Johnson, American League president, was to have been asked to explain the charges credited to him concerning the Cobb-Speaker case. Action of the league club owners Sunday in giving Johnson a vacation and elevating to the active presidency Frank J. Navin of Detroit automatically cancelled the "showdown" meeting.

Johnson, who is in ill health, appeared somewhat more cheerful Tuesday.

NELSON PINMEN WHIP EAGLE KEGLING FIVE

Nelson Insurance Co. bowlers took two games of a match with the F. O. E. pin five Monday night at the Eagle alleys, taking the match by 310 marks. The Insurance men dropped the first game by 27 sticks but rolled 855 in the second to win by 174, making up the difference and more with ease. Another game of 927 gave them 166 more lead in the final tilt.

If Kozitske of the winners was the star of the fray, rolling a 237 high game and a 565 high series. For the losers, B. Wellhouse had high game of 189 and W. Groth had high series of 517. Andy Jimos of the winners rolled the only other 200 game of the match, a 202.

RICHARDS, THOUGH PRO, RANKS HIGH AS AMATEUR

New York—(AP)—Vincent Richards would rank No. 1 in American tennis for 1926 despite his turn to the professional game at the close of the season. He was ranked by the Association ranked Richards No. 1 in the sectional list.

"Richards is clearly entitled to Number 1 ranking on the season's play," Tilden said.

Surprise Win of Coated Paper Over Kimberly - Clark Changes Lead

| Riverside Paper | 2 | 1.333 |
| Co. D | 1 | 1.167 |

By winning its league game last Tuesday the Fox River Paper Co. cago squad found it self alone on top of the Y. M. C. A. Industrial cage loop at the end of the week. The result was accomplished when the Coated Paper Co. crew reared up and knocked the dope all over the county by whipping the Kimberly-Clark crew, leaders since the loop opened, by the decisive score of 21-10.

It was the first time the K-C men have been off the loop top rung this year as well as their worst beating of the year.

Not only did the Coated men pull the K-C crew off the top by the win, but they also pulled up from a fourth place to one to third place, less than half a game behind second and the Kimberly men. So close is the race that the first six teams are less than two games apart and not more than a game separates any team from the one ahead of it. The K-C's are a half game from the top, the Coated Paper and Galpin in third are just a game from the top and a half-tilt from second and the Kay Y and Citizens bank, in fifth, are a game and a half from the leader and a half-game behind third place.

In the other corner of the evening the Riverside Paper Co. D by beating that cellar in one of the most exciting and hard-fought games of the loop. The teams had been tied for the bottom all season. Riverside started for 9 of 17 points. Flotow, Gardner, LaRoux and Klundt also broke into the score column. Green lead the Guardians with three ringers and two free tries for 8 of 15 points. Klein, Behnke and Muenster added five throws to the score.

In the bus cage Bowens lead the winners with four baskets and a free try. Muenster scored three ringers and Kneip two and a single point. Van Ryzin and DuChane got two baskets each for Kimberly and Van added two free throws. The important games for this week are between the Coated Paper Co. and Galpin Tuesday night, a second and third place battle, and the Kay Y-Citizens Bank game Saturday evening for third and fourth place.

MICHIGAN TIGHTENS GRIP ON LEADERSHIP

Chicago—(AP)—Michigan Tuesday has a firm hold on the leadership on the Big Ten basketball squads with five victories and no defeats and no chance of an upset until the Wolverines meet Purdue on Feb. 15 and Indiana Feb. 19.

Michigan's fifth victim Monday night was Minnesota, which has gone through half its schedule, 35 games, without a victory. Against the Michigan six-footers, the Gophers had little chance.

The only remaining Big Ten games this week are between Chicago and Indiana, and Minnesota and Ohio. Hostilities cease then for mid-year examinations until Feb. 5.

6 BATTERS MISS .300 HONORS BY ONE POINT

Chicago—Being regarded as a .300 batsman is perhaps the very best compliment a big league regular can enjoy. It is considered the select circle of hitters.

One of the biggest disappointments in baseball is to fail to reach one's goal by the slightest of margins. It hurts far more to miss one's objective by a point rather than being 25 away.

The American League averages of 1926 reveal the interesting and unusual fact that six American League regulars failed to reach the coveted mark by a single point. They were Shelly of Chicago, Flagstead and Jacobson of Boston, Ruel of Washington, Combs of New York and Jamieson of Cleveland.

PITCHING ACE HAS BAD BATTING YEAR

Cleveland—While George Uhle had a great season in 1926, leading the American League in victories with 27, he slumped badly at the bat.

Uhle is conceded to be just about the best hitting pitcher in the American League, and for a big fellow he steps down to first base in mighty fast time. The ace of the Cleveland staff is as much concerned about his hitting ability as his pitching. While his 27 wins were the cause of much joy, his batting average of .227 was a distinct disappointment.

ROLAND LOCKE WILL BE A BUSY ATHLETE

Roland Locke, the world's fastest six indoor track meets at least starting after the February examinations are finished.

Locke is still attending Nebraska but he has completed his time as a member of the track squad so will run under the colors of the "N" club, a Yale athlete who have won their "N's."

APPLETON GIRLS ROLL HIGH GAME AT OSHKOSH

Hopple's Sausages rolled another high game for girls' pin teams at St. Mary alleys at Oshkosh when they whipped the Irbig Electric Washers three straight games by totaling 2661 points, including a game of 2300 by Appleton. The star of the match, piling up a high game of 230 and a high series of 570. High game for the losers went to L. Meyers with a 193 and E. Roenitz had high series of 465. The local girls took the match by 69 sticks.

AND GROWS
 (Overheard by Jerry C. Robbins)
 What Mrs. Wickham Said—I saw a hat today I would certainly like to have. It's blue. I'm going to tell my husband about it tonight.

What Mrs. Baxter Said She Said—Mrs. Wickham says she's blue because she can't get a new hat. She says she's certainly going to tell her husband a thing or two!

What Mrs. Hemway Repeated—I suppose you've heard about the terrible fight the Wickhams had? No! Well, it seems that Mrs. Wickham wanted to buy a new hat and her husband refused. They fought, and that brute of a husband struck her again and again—till she was blue all over. Ain't it awful, Edith? Such men ought not to be permitted to live!

And What Mrs. Berry Said—I rushed right over, dear, to tell you because I wanted you to get the whole story right. I know all about it, so you can be sure you're hearing the straight of it. Mrs. Wickham is in the hospital—yes, battered beyond recognition. Her husband did it, and listen, dear, here's the exciting part—the detectives are tracing him through

a red, white and blue hat he bought for another woman! Isn't it AWFUL?

Y. M. C. A. OPEN TO DADS AND SONS IN FATHER-SON WEEK

Boys Work Committee of "Y" Votes Contribution to Civic Week

An open house Father and Son night to which every father and son in Appleton will be invited, will be held at the Y. M. C. A. during Father and Son week, Feb. 13 to 20, it was decided at a meeting of the boys' work committee of the association Monday evening. Special programs in the gymnasium, including a basketball game, will be given for the fathers and sons, and billiards, bowling and other games will be thrown open for their free use. It will be the committee's part in celebrating the week.

The policy and program of the committee for 1927 was discussed and the committee was appointed for the year. The camp committee consists of Lacey Horton, chairman, Ben J. Rohan, W. E. Smith, A. P. Jensen and A. C. Remley. Members of the III-Y advisory committee are John Pugh, chairman, J. R. Walsh, Harold Hehl, H. H. Hehl, and W. E. Smith. Each of the four meetings held each month, it was decided. The committee for Father and Son night will be announced later by W. E. Smith, chairman of the boys' work committee.

The committee decided to recommend that the association build a new open for use on Sundays from 2:30 to 5 o'clock, except for games in which money is collected as billiards and pool. The regular meeting date for the committee was set for the second Tuesday of each month. The next meeting is on Feb. 6.

APPOINT COMMITTEE TO DRAFT YEAR'S PROGRAM

A program committee for the year was appointed at the meeting of the Freshman Fraternity Monday evening at the Y. M. C. A. Members of the committee are John Reeve, chairman, Maurice Davis, Donald Ralph, Robert Davis, Alfred Ventur and David Trettin. Carl Ek was elected basketball manager for the club. It was decided to hold an initiation for new members on Feb. 14.

The comrades club of Emmanuel Evangelical church will meet at 7:30 Wednesday evening. Club dues have been received and they will be distributed to the members. The pins consist of a square containing a large C in a triangle in the center. In the four corners are gold stars representing the four-fold life of the comrades program. Guest night will be the feature of the regular meeting of the III-Y club Wednesday evening at the Y. M. C. A. Each member will bring a guest and a special program will entertain the visitors. Carl Nelson is in charge of the program.

AUTOMOBILE DEALERS FORM VOLLEYBALL LOOP

Automobile dealers in the city will play volleyball three times each week. It was decided at a meeting of ten dealers Monday evening at the Conway hotel. J. T. McCann and O. R. Kloehn will captain the teams which will be chosen after the first game on Thursday. Regular days hereafter will be Tuesday, Thursday and Saturday nights.

The losing team will entertain the winners at a dinner once each month. Games will be played at the Y. M. C. A. gymnasium.

NEED \$167,000 A DAY TO PAY CITY'S TAXES

Approximately \$167,000 must be collected every day for the next five days by Fred E. Bachman, city treasurer, if the 1927 tax roll is to be collected by Jan. 31. On Monday a total of about \$25,000 was collected, the largest amount in any single day since tax collection started, bringing the total collected at present up to slightly more than \$50,000. The tax roll is \$1,213,392.78.

Tax collections for each day since Jan. 19 were as follows: Jan. 20, \$19,215.01; Jan. 21, \$18,110.99; Jan. 22, \$5,394.92; Jan. 23, \$55,000.

COUNTY HIGHWAY MEN ATTENDING ROAD SCHOOL

Knowledge on highway construction, snow-removal, highway maintenance and similar problems is being obtained by the county highway committee attending the annual road school at Madison. The program opened Monday and will continue through Friday. Those attending the school from Outagamie are F. R. Appleton, Onondaga, A. M. McClure, Dear Creek; L. T. Bushey, Appleton; A. H. Drelich, Ellington, all members of the highway committee; and A. G. Brusevitz, county highway committee and William Shire, the county's most skilled patrolman in 1926. James Purcell, Kaukauna, the fifth member of the highway committee, was unable to attend because of illness.

PRIM ATTENDS FUNERAL OF BROADHEAD OFFICER

Police Chief George T. Prim returned Monday night from Broadhead, where he attended the funeral of John Gauthier, former chief of police of that city. The funeral was held Monday afternoon.

Mr. and Mrs. Huko Jankatz, W. College-ave, have returned to their home after a visit in Manitowish.

"THE GORILLA" FULL OF LAUGHS FOR THEATREGOERS

The shrieks, screams, and squeals which accompanied the appearance of the hairy hand of the gorilla through an aperture in the wall of the dark and musty basement during the Gross-Ross company's production of "The Gorilla" at Fischers Appleton Theatre last night were followed by sales of laughter at the antics of Mulligan and Garrity, self-styled sleuths, who are dumber than the proverbial bull or donkey. Unlike all other mystery plays seen here, "The Gorilla" is filled with as much "comedy relief" as it is chock full of scares, and Mulligan and Garrity, together with Mammy Lee, the colored servant of the 100-year old house which is the scene of all the action, keep the audience laughing between thrills.

RECEIVE DESCRIPTION OF ALLEGED MURDERER

A description of Paul Corbo, alias Jimmy the Wop, alias Frank Fortunati, wanted for murder in New York city, has been received by the Appleton Police department. He is 24 years of age, 5 feet 5 1/2 inches tall, and 125 pounds in weight. He has brown eyes, dark brown hair, is of medium build and has a sailor's complexion. He is a chauffeur by occupation, and was born in the United States of Italian parents. An indictment warrant is held charging him with shooting and killing Albert Webber in a pool parlor on E. 160th-st, New York city, on Sept. 14, 1924.

RURAL SCHOOL TO HAVE "HARD TIMES" PARTY

An "old time, hard time" party will be held Friday evening, Jan. 28 at the Cedar Grove school, route 2, Appleton. Prizes will be awarded for the best costumes. Four children of the school have a record of perfect attendance during the year. They are Margaret Sweet, Lorraine, Gerald and Adeline Huebner. Those who have completed their reading circle work are Doris Jaquet, Lydia Tellock and Helen Sweet.

DR. HARRINGTON TALKS TO SCHOOL ASSEMBLY

Dr. T. L. Harrington of the Wisconsin Anti-Tuberculosis association, will speak to students of Appleton high school on the Prevention of Tuberculosis at a general assembly meeting at 1:10 Wednesday afternoon. The physician is in Appleton in connection with the free chest clinic sponsored by the association and held at the Appleton Womens club.

ANTI-T. B. EXAMINER GUEST OF KIWANIS

Dr. T. L. Harrington of the Wisconsin Anti-Tuberculosis association will speak at the regular meeting of the Kiwanis club Wednesday noon at Hotel Northern. An informal reception for J. L. Johns and L. C. Sloper, who were elected district and county district secretaries respectively of Wisconsin and Upper Michigan Kiwanis last week, will be held and routine business will conclude the meeting.

WERNER AND KREISS ARE IN MILWAUKEE COURT

Judge Edgar V. Werner and William Kreiss, circuit court reporter, are spending the week at Milwaukee, where Judge Werner is sitting in circuit court cases in that district. They probably will be gone the entire week.

Board Holds Meeting

The board of public works met at 2 o'clock Tuesday afternoon to make preparations to confer with officials of the Chicago and Northwestern railroad regarding the placing of new tracks over the subway on S. Mason-st. The new beams would allow the street cars tracks to be placed in the center of the street.

TRADES COUNCIL MEETS

Appleton Trades and Labor council will hold a semi-monthly meeting at 7:30 Wednesday evening at the Trades and Labor hall. Routine business matters will be considered, according to Fred E. Bachman, president.

Breaks Shoulder

Miss Margaret Ryan, 1705 S. Oneida-st, fell in front of her home Tuesday morning and broke her shoulder. The patient was taken to St. Elizabeth hospital for treatment.

THE DAYS OF REAL SPORT

URGE EXAMINATIONS TO PREVENT PLAGUE

Tuberculosis Easily Checked if It Is Discovered Early Enough

Persons with tuberculosis in an active or suspected state have been urged to attend the free chest clinic opened Tuesday and to continue over Wednesday at the Appleton Womens club sponsored by the Wisconsin Anti-Tuberculosis association. Dr. T. L. Harrington of the association is the examining physician and he is assisted by public health nurses of the city and county.

If disease is located early, there is no reason for being fatal, the association has found. Sanatoriums should have a preventive and curative function, physicians maintain, and this could be possible if diseases of the lungs were discovered in their early stages.

"Tuberculosis is generally contracted in childhood and remains in the body for years, awaiting the day when through sickness or incorrect living the resistance of the body has been lowered and tuberculosis can get in its work. The healthy body has nothing to fear from tuberculosis," the association states. "The traveling free chest clinics are doing a mighty work in rooting out tuberculosis and other defects in its early stages before it has taken a good hold."

The primary object of the examinations at the clinic is the early discovery of tuberculosis when it is most easily and certainly curable. The examinations include the heart, eyes, ears, nose, and throat as well as the chest. After the examinations, which are private, the patient is given a copy of the report of the physician and directed to return to his family doctor when treatment is needed. Any person who has been in contact with tuberculosis and individuals with unexplained loss of weight, disturbed digestion, fever, persistent cough or other suggestive symptoms has been asked to visit the clinic.

PERSONALS

Miss Bonnie Heinzl, daughter of Mr. and Mrs. John Heinzl, submitted to a serious operation at St. Elizabeth hospital.

Miss Gus Keller, Sr., who has been confined to St. Elizabeth hospital for the last two weeks, has returned to her home.

Mr. and Mrs. D. Brelon of Madison, have returned to their home after a week's visit with Mrs. Brelon's parents. Mr. and Mrs. W. S. Grant, E. Pacific-st, Mrs. M. P. Hatch, 617 N. Clark-st, Funeral services will be held at 9:30 Thursday morning from Mrs. Hatch's home and at 10 o'clock at St. Joseph church. Burial will be at St. Joseph cemetery.

RELEASE WAUPACA MAN HELD FOR FORGERY

Waupaca. A charge of forgery brought in Waupaca against Harry Ruvin, 22 has been dismissed by Judge Byron B. Park of Stevens Point at the request of authorities there.

Ruvin was arrested on a warrant alleging he had passed \$1,500 worth of bad checks, but when the case was called Saturday, Dist. Atty. Lloyd Smith asked for a dismissal explaining that all checks had been honored, and that the charge had been due to a misunderstanding.

GOVERNMENT PERMITS CHAPLIN TO DRAW FUND

Washington, D. C.—The government Tuesday agreed to permit Charlie Chaplin to obtain money he has in a New York bank and against which an income tax lien had been placed. The actor will be permitted to post a bond on the funds in the New York bank, which are estimated at more than \$600,000.

Band will be posted in New York within a few days under the arrangement worked out Tuesday between his lawyers and officers of the internal revenue bureau.

OBSCURE HIMSELF, HE HELPED GREAT MUSICIANS TO FAME

New York—Twelve of the greatest musicians to whom America has accorded unstinted plaudits and dollars were helped to their triumphs by a man whose name is virtually unknown and who abhors publicity.

Daniel Mayer, who has spent 40 of his 70 years as a concert manager Tuesday emerged from the shadows of those he has assisted in gaining a place in the sun to give his formula for obtaining recognition for genius.

Paderewski, Melba, Pavlowa, Elman, Schumann-Heink, Caruso, Ysaye, Jan and Edmund De Reszke, Richard Strauss, DelFavio, Mann and Dusehina Giamini were for a time under Mayer's management and some of them were lifted by him from comparative obscurity.

"First," Mayer said, "a manager must recognize artists and not try to manufacture them. Secondly, there must be no trickery in efforts to obtain publicity."

THE DAYS OF REAL SPORT

Washington, D. C.—The government Tuesday agreed to permit Charlie Chaplin to obtain money he has in a New York bank and against which an income tax lien had been placed. The actor will be permitted to post a bond on the funds in the New York bank, which are estimated at more than \$600,000.

Band will be posted in New York within a few days under the arrangement worked out Tuesday between his lawyers and officers of the internal revenue bureau.

POPE DISSOLVES BOY SCOUT GROUPS

Action Is Taken in Protest Against Similar Decree by Mussolini

Rome—(AP)—Catholic Boy Scout organizations in Italian cities having fewer than 20,000 inhabitants are to be dissolved under instruction of Pope Pius.

This action by the pontiff as explained in a letter to Cardinal Gasparri, papal secretary of state, printed by the Vatican organ Osservatore Romano, is in protest against the royal decree issued by Premier Mussolini ten days ago dissolving such organizations in smaller communities. The royal decree has not yet been put into effect.

The pope says that the Holy See will itself dissolve these organizations, rather than have the state do it, and as justification for the step quotes the words of Jesus, David to the Almighty: "If we must do, let it be by your hand, rather than by the hand of men."

When the Fascist decree was announced, it was stated that Mussolini's action was prompted by frequent conflicts arising out of the rivalry between the Fascist young men's organization called "Baldia" and the Catholic Boy Scouts. While the ruling of the Fascist government was not in accordance with Catholic doctrine, Pope Pius explains he is anxious that his decision should not be interpreted as a reprisal or as inspired by animosity.

COMMITTEE ALLOWS BILLS

The highway committee Monday afternoon authorized payment of a number of bills against the county. This was the only business transacted.

HEAVY LIQUIDATION AT MARKET OPENING

Confused Price Movements Characterize Early Trading on Wall Street

New York—(AP)—A sharp break of over five points in Wheeling and Lake Erie Common Stock, the sensational early market move, was a feature of recent markets, was the outstanding development at the opening of the stock market today. Western Maryland Common crossed 21 to a new peak, and moderate advances were recorded by a few other low priced rails, but the general tendency was downward, with heavy liquidation taking place in the industrial districts.

Extreme confused price movements characterized the early trading. Western Maryland Common, after establishing a new top at 21 1/2, sold down to 20 and Wheeling and Lake Erie Common rallied from 20 to 21 1/2. The preferred fell back 1/2 to 16 1/2. Some of the selling of the industrials probably was inspired by the announcement that an assignment of creditors had been made by the Philadelphia banking house which had sponsored the Eater-Welte Corporation stock. The sensational break in which featured Monday's market, another sharp decline in the early hours. The market was without a bullish factor, apparently was without market influence.

BEARS ARE ACTIVE—Stock market analysts of several large operators who had been prominent on the upside were construed as a bearish factor. Gulf, Mobile and Ohio, which had been on a new peak at 42 1/2, early selling was directed chiefly against such issues as Commercial Solvents B, Warner Pictures, U. S. Cast Iron Pipe, Republic Steel and United Drug, all of 1 to 2 1/2 points. Establishment of the highest rate since last June by Spanish pesetas at 16 1/2 cents was the most interesting development in the foreign exchange market. Demand sterling ruled steadily around 12 1/2 to 13 and French francs around 250 cents.

Repetition of Monday's liquidation in various specialties, together with a general selling of standard railroad and industrials, resulted in a number of substantial declines in the early hours. Furness Brothers A slump in points, Remington Typewriter Co, Commercial Solvents B and Lehigh Valley 4, and Case Thrashing Machine and Burns Brothers 3 each at midday the market showed the same characteristics as on Monday, a number of stocks rallying briskly under the leadership of Alabium. BELIEVE COUNTY BOARD MIGHT ACT ON SNOW REMOVAL

Expect Matter Again to Be Brought to Attention of Supervisors

Despite the lateness of the season, the question of snow removal from Outagamie co highways again may be brought before the county board of supervisors at their February session starting Feb. 15.

Although an appropriation was made for the purpose at the November session, a large enough fund was not created to permit snow removal on roads other than highway 15 between this city and Kaukauna, between Appleton and the asylum and between highway 15 and River View sanatorium and other sections of the county, although evidently desirous of keeping their highways clean, so far have been unsuccessful in their attempts.

One of the last plans to be discarded had in mind the clearing of highway 16 from Appleton north to the county line. Action to remove snow on this highway originated in the towns of Deer Creek and Ellington, both towns having supervisors of the county highway committee. Supervisors A. M. McClellan and A. H. Dieckhoff are the respective members on the county board from these towns.

The suggested plan would have apportioned the cost of the project among the towns and villages through which highway 16 goes but letters sent to these municipalities indicated they were not very enthusiastic over the suggestion. Several of the towns indicated they might be willing to cooperate if they were given some idea of the cost per mile. From Appleton to the county line the highway runs through the towns of Grand Chute, Greenville, Ellington, Bovina, Maple Creek, and Deer Creek, and the villages of Shiocton and Kaukauna. Two towns, Dale and Greenville, now are considering removing snow the rest of the winter from highway 18, west of Appleton. They propose to rent some of the county road equipment for the work, paying the cost themselves. A. G. Brusewitz, county highway commissioner, visited these towns Tuesday to determine the condition of the roads there.

No attempt has been made, nor is any in sight, to clean either highway 17 or 55, north of Appleton.

CANNING INDUSTRY IS RAPIDLY INCREASING

Washington, D. C. — The Department of Commerce announces that, according to data collected at the biennial census of manufacturers taken in 1926, the combined value of the 1925 output of establishments engaged primarily in the canning of fruits and vegetables and in the manufacture of pickles, jellies, preserves, and sauces amounted to \$616,067,748, an increase of 19.5 per cent as compared with \$515,516,773 for 1923, the last preceding census year.

Of the 2,402 establishments reporting for 1925, 222 were located in Maryland, 209 in California, 211 in New York, 150 in Wisconsin, 124 in Indiana, 105 in Missouri, 102 in Ohio, 100 in Illinois, 99 in Maine, 81 in Virginia, 73 in Pennsylvania, 66 in Michigan, 66 in New Jersey, 62 in Iowa, 55 in Oregon, 55 in Delaware, 55 in Washington, 51 in Arkansas, 49 in Tennessee, and the remaining 274 were distributed throughout other states and the District of Columbia.
